

## OPPOSITION HAS SUDDENLY SPRUNG UP TO TAX REFORM

### LIEUT. GOVERNOR CHARGES OPPOSITION INSPIRED BY CORPORATIONS

By Associated Press.  
Austin, Texas, March 10.—Lieut. Governor Barry Miller deserted the speakers' chair in the Senate today to appeal from the floor for passage of the Stevenson tax reform resolution.

Speaking under unanimous consent he asserted that he believed that opposition to the measure, which broke out overnight, was inspired by powerful corporations which have suddenly decided to oppose the resolution. Sweeping changes in the taxation system are the ultimate object of the resolution which would submit to a referendum the question of giving the Legislature wide powers in altering the present system.

Yesterday the measure passed to third reading with negligible opposition, but today several Senators took the floor to oppose it, and Senator Eugene Miller, who had voted for the measure, spoke against it, declaring that the matter should be postponed to await the report of a tax survey commission which is now at work.

Answering statements from Senator Moore that proponents of the measure wish to change the 33c school tax and the levy for Confederate Veterans, the Lieutenant Governor accused opponents of the measure of raising hushers to prejudice voters against the measure. A burst of applause greeted his declaration that no Legislature would dare to do away with the school tax, the levy for veterans or the homestead laws.

"This is merely a measure to give the voters an opportunity for expressing themselves on the question of taxation, the most important issue, as far as the people are concerned, that we now have or likely to have."

Noon recess interrupted a speech by Senator Stuart against the measure.

### Increase for R. R. Commission.

Associated Press.  
Austin, Texas, March 10.—Supported by farmer members of the House, the Bledsoe Senate bill to increase salaries of Texas Railroad Commissioners from \$4,000 to \$6,000 a year, was finally passed today and sent to the Governor.

### Want Fund for Liquor Permits.

Associated Press.  
Austin, Texas, March 10.—Representatives of the W. C. T. U. today requested the House appropriations committee to place in the general appropriation bill, a provision for \$18,000 to be used by the comptroller in the supervision of liquor permits.

## TWENTY-SEVEN DIE IN THEATRE FIRE IN RUSSIAN VILLAGE.

### FORTY OTHERS REPORTED MISSING, MOSTLY WOMEN AND CHILDREN

By Associated Press.  
Volodga, Russia, March 10.—Twenty-seven persons were burned to death in a motion picture theatre first last night in the village of North Avinsk. Forty others were missing today.

Woman's International Emancipation Day was being celebrated when a kerosene lamp upset. The flames spread so fast that only a few in the audience had a chance to escape. Most of the victims were women and children.

## EVACUATION OF RHINELAND WILL BE BROUGHT UP

By Associated Press.  
Geneva, March 10.—Germany soon will officially raise the question of evacuation of the Rhineland. Dr. Gustav Stresemann, German Foreign Secretary, told the press today, with every expectation that it will be settled satisfactorily.

He added that the world must realize that the presence of foreign troops on German soil was not in consonance with the condition of peace prevailing at the present time.

Charles W. Rife, radio editor of the Columbus, Ohio, Dispatch, is so deaf he cannot hear a brass band 20 feet away. He contrived a powerful headset so loud that a person of normal hearing is almost dazed by the roar.

Baby twins at Lancaster, Pa., are named Grace and Calvin Coolidge Girvin.

"Corsicana Has It."

## TRAFFIC LIGHTS OPERATED ON NEW PLAN AIDS TRAVEL

### TWO RED AND TWO GREEN ALTERNATE ON NORTH AND SOUTH STREETS

A new system of operation for the traffic signal lights in the business district was put in operation here Thursday morning and it is easy to see that the new system will facilitate traffic north and south and not interfere with the east and west traffic. The new plan is simple, yet necessitates motorists changing their plans for watching the lights.

The two adjacent lights are red and green as the case may be, with the two lights adjoining being the opposite color. For instance, when the lights at the corner of Seventh and Sixth streets are red the lights at the corner of Collin street and Fifth avenue and Beaton and Main are green and the lights at the intersections of Fourth and Third avenues and Beaton and Main are red.

This permits motorists going north and south on these streets, traveling at a moderate rate of speed, traveling the entire length of the street without being blocked by the red light, as by the time they pass through the two green lights directly before them the succeeding two lights will have become green and so on until they have passed through the traffic light signal district.

One thing made necessary by this change, for a time at least, until motorists become accustomed to the change, will be that drivers should watch the light directly in front of them and nearest to them and not the light a block away, as has been customary with many in the past, especially in closed cars and in cars with sunshades or visors attached.

Chief of Police Knight had his traffic officers stationed in the business district Thursday giving directions regarding the new signal system, and he urges the public to note the change and accustom themselves thereto as a disregard of the signals will cause not only a violation of the law, but will increase the danger of street intersection accidents.

## LANDMARK BURNED AFTER SERIES BLASTS IN BOILER ROOM

### OLD AMARILLO HOTEL DESTROYED AT EARLY HOUR THURSDAY MORNING

By the Associated Press.  
Amarillo, Texas, March 10.—The death of a mother and her child and injuries to six other persons marked the destruction by fire early today of Amarillo's oldest landmark, the original Amarillo hotel, recently used as employees' quarters for the present Amarillo and Herring hotels.

The building, a rambling two-story frame structure, on the edge of the business district, three blocks from the Amarillo hotel, caught fire shortly after 4 a. m. from a series of explosions in the boiler room, believed to have been caused by escaping gas. The flames spread rapidly, and the seventy roomers in the building fled, many of them scantily clad, into the street. Several leaped to safety from the windows. Damage is estimated at \$25,000.

Most of those in the building were employees of the Amarillo and Herring hotels.

### Body of Baby Found.

The charred body of the baby was found in the ruins where the child had been dropped by its mother, Mrs. Benito Gonzales, in her flight from the building. Mrs. Gonzales was severely burned, and died in a hospital at 10 a. m.

The structure is the first building of any size constructed in the present city of Amarillo and once was known as one of the finest hotels in this section. It was built in 1889 by H. B. Sanborn, known as the "Father of Amarillo" and who is said to have been mainly responsible for the moving of the town site from its first location north of the present city.

The dead: Mrs. Benito Gonzales and her one month old baby.

The injured: Jerry Knackenbush, carpenter, 71, ankle broken; Mrs. Florence Nelson, 50, housekeeper, injured internally; Hazel Thomas, 13, school girl, severely burned; E. Richards, 30, laborer, broken leg; Charles Adams, chief, severely burned; Mrs. Charles Adams, back sprained from leaping out of window.

## Aged Man Kills Wife and Suicides

Carmi, Ill., March 10.—Perry Hunter, an aged retired farmer at Mill Shoals choked his wife to death Monday and cut his own throat. He left a note in which he said he killed his wife because she threatened to have him sent to an insane asylum. The bodies were found late yesterday.

## SENATE ADOPTED HOUSE RESOLUTION FOR ADJOURNMENT

### GOVERNOR FEELS MAJOR MEASURES CAN BE DISPOSED OF BY THAT DATE

By the Associated Press.  
Austin, Texas, March 10.—Since the adjournment of the Fortieth Legislature next Wednesday was assured today when the Senate adopted a House resolution to conclude the session at that date.

The Senate was assured that Governor Moody feels that all outstanding tax, textbook, penitentiary and judicial legislation now pending can be cleaned up by then.

## Severe Blow Dealt Tobacco Tax Bill

By Associated Press.  
Austin, Texas, March 10.—A severe and perhaps fatal blow was dealt the tobacco tax bill in the House today when its opponents gained their point in a parliamentary tangle over whether the bill could be taken up out of regular order for final passage.

The House by a vote sustained a ruling of the Speaker that the measure could be taken up only by a two-thirds vote under rules governing the first four of the last six days of the sessions. Since the Senate today adopted the House sine die adjournment resolution ending the session Wednesday, the House automatically went under the session-end rules.

Vote on Representative Satterwhite's motion to take up the bill was 77-55, not the necessary two-thirds.

## Attorney General's Opinion Deplored

By Associated Press.  
Austin, Texas, March 10.—Attorney General Claude Pollard's action yesterday in ruling holding tax diversion bills now pending unconstitutional, was deplored today as destroying "the greatest progressive step yet offered to the people of Texas," in a letter to him from the Fort Worth and Dallas delegations supporting a North Texas Trinity river reclamation project which contemplates diversion of taxes.

The validity of Pollard's opinion given in response to representatives' requests was questioned throughout the letter. Pollard is preparing an answer.

## Senate Turn Down One Referendum

By Associated Press.  
Austin, Texas, March 10.—The Senate today refused to adopt a resolution calling for referendum on the question of placing all school officials on a four-year term basis, but approved two other propositions to be placed before the voters.

One of these provides for exemption from taxation all church property, property of charitable institutions and of Young Men's Christian Associations and similar organizations.

The other would make the tax levy for Confederate Veterans available for pensions to widows of veterans who married after the war, as well as those who were married to the veterans at the time of the war. Both proposals now go to the governor.

### Condemnation Resolution Fails.

By Associated Press.  
Austin, Texas, March 10.—Efforts to condemn the policy of the United States in Latin-America failed in the Senate today when that body tabled, subject to call, a resolution by Senator Love, endorsing the resolution on the subject introduced in the last Federal Congress by the Democratic side of the House.

## FLAMES DESTROY TADLOCK HOME AT EARLY HOUR TODAY

### HOUSE IN FLAMES WHEN FAMILY AWAKENED AND CONTENTS DESTROYED

Awakening to find his house in a solid mass of flames at 2:40 a. m. Thursday R. L. Tadlock, 2105 West Third avenue, had just enough time to save one piece of furniture, that being a chiffonier, when the fire of undetermined origin practically destroyed both house and furniture estimated at \$1,500.

The house was valued around \$2,500, and was reported to be covered by insurance. Furniture in the house was valued at \$2,000 with \$1,500 worth of insurance.

The fire was too well under way when city firemen arrived on the scene and they were unable to do any more than prevent the flames from spreading to adjacent houses.

## ARTIFICIAL RESPIRATION STILL KEEPING SPARK OF LIFE IN CHICAGO YOUNG MAN

By Associated Press.  
Chicago, March 10.—Albert Frick, kept alive 97 hours by artificial respiration since Landry's paralysis halted voluntary use of his diaphragm and lungs, was holding his own at 11 a. m. He was given a little broth at that hour, his first food since he was found four spoonfuls of coffee at 7 a. m. He slept ten minutes after 10:05 a. m.

By Associated Press.  
Chicago, March 10.—The spark of life kept aglow in the paralyzed body of Albert Frick for four days by a resolute crew of men, working in shifts to provide artificial respiration, flickered feebly today as three score workers battled grimly against death.

Through the long watches they toiled, two by two, compressing and relaxing, compressing and relaxing the lungs that became numb Sunday morning.

Except for brief administration of oxygen there were no breaks in the rhythmic process, but there were further signs of exhaustion in Frick's stricken body, and a bluish color spreading over the features of the 22-year-old patient told of a tide of battle against a straining heart.

Doctors said this indicated faulty circulation and marked additional advance for the creeping paralysis that brought Frick to death's door Sunday morning, when it reached the spinal cord, and the nerve contact with the diaphragm, causing lower chest muscles to cease functioning.

At 7 o'clock this morning, at the end of the ninety-third hour of artificial respiration physicians said they believed Frick's condition was appreciably improved and hope for his recovery was revived. During the early morning hours he fell into a brief natural sleep, while a succession of comrades continued without break their pumping of air in and out of his lungs.

Frick's two comrades, who left his room at 11 o'clock after their fifteen-minute period of supplying life, said that he was talking more and that as a result the motions of pumping air into his lungs had to be faster.

Frick is able to utter only one word at a time, with the down stroke of his buddies' hands as they expel the air from his lungs. He said that his shoulders hurt from the hours of being forced against the bed, and asked that his position be changed.

The continual pumping was not interfered with even momentarily as Frick's bed was changed and he was given an alcohol bath.

Frick at noon still was able to express through his eyes his thanks to 56 comrades, whose efforts alone had kept the breath of life in his body for 98 hours.

A wisp of hope, the doctors said, still fluttered over the hospital room.

Frick's paralysis has been diagnosed as Landry's disease, which was first reported in 1859.

The longest case on record of sustaining life of a patient ill of Landry's disease, by artificial respiration, was that of a Swedish girl in St. Paul, Minn., who lived 41 days.

The girl, 20 years old, was taken to the hospital on September 30, 1898. On the fifth day of her illness, paralysis of the respiratory organs developed. Artificial respiration by the manual method, as in the case of Frick, was resorted to immediately and continued until November 12, when she died.

Suspects Escaped From Jail.  
Greenville, Texas, March 10.—Two men recently arrested in Dallas and turned over to Hunt county officers in connection with a robbery here escaped from the county jail last night by tunneling through the brick wall of the hospital ward in the building.

## BRITAIN ACCEPTS THREE-POWER NAVAL CONFERENCE PLAN

By Associated Press.  
Washington, March 10.—The British government has instructed Ambassador Howard here to accept the American proposal for a three-power naval disarmament conference.

Although a reply from the Japanese government is still awaited there has been no question here that Japan will respond favorably to the plan to further limit naval armaments. The actual dispatch of formal invitations for the conference probably will fix a date in June or July for the meeting which will be held at Geneva.

Ambassador Howard made an engagement with Acting Secretary Brown today to discuss the question

### TELLING THE WORLD ABOUT TEXAS

Texas, at this time, is getting much constructive publicity. Writers of national reputation are writing about Texas and magazines of national circulation are publishing much about the Lone Star State. And there is plenty to tell the world about Texas without exaggerating in the least.

To those who live in Texas and to those who have made extensive tours of Texas the magnitude and possibilities of the State are well known but to some of those living in distant parts of the country a statement of facts and figures would appear to come from an unusually imaginative mind.

Texas has always been a great state but the future will see Texas progress far beyond the dreams of the most ardent optimist. Texas has the soil, climate and resources—development is all that is needed and to secure the capital for the development the world must be told about Texas and that is exactly what is being done at the present.

In the last issue of the Manufacturers' Record four separate articles were carried broadcasting Texas assets. In one of the articles "Imperial Texas" the editor writes: "Imperial in area, Imperial in resources, and Imperial in the vision of the wonders of the modern world." The growth of cities like Dallas, Ft. Worth, Houston, Galveston, San Antonio and others is an inspiration to every man who is in touch with their magnificent progress.

In another article praises of Texas climate are sung in a whole page written by Wellington Brink of Dallas. Two articles are contributed by Frank Gould, first vice president of the Manufacturers' Record who is now on an automobile tour of Texas. He writes from Dallas and Austin. Mr. Gould relates in one of his articles:

"The Texas Research Society, at a recent dinner in Dallas, had presented to its members truly astounding facts of what Texas can offer manufacturers in every line. It is not only the manufacturers of cotton goods who is being invited to come but those who use raw materials and minerals of nearly every kind in their output. The field for chemical plants seems to be especially inviting. Texas is paying millions to bring back for the needs of her people manufactured products using Texas sulphur and soda as a base, products which can just as well be made here. Iron, Kolin, Zinc, asphalt are only a part of a long list of things which are found in great quantities in this state. Its lignite and coal and oil will supply the fuel.

"What a change a few years has brought about! It cannot have been twenty years ago since more than one prominent railroad man stated in my hearing, 'Why talk of factories for Texas? Texas will always be an agricultural state.' The attitude of Texas people toward outside wealth and factories and corporations has changed greatly during these years. It is not necessary to go into that. Texas invites now—and she has great reason in what nature has given her for the invitation she is extending. Her promises to those who come will be fulfilled. It is a marvelously endowed state. An endowment of men and of soil and climate."

Following his trip to Austin by automobile Mr. Gould says, "My vision was only limited by the horizon, such are the distances here, and as I looked across great fertile plains, with the air as clear as crystal, I saw a smiling land, every inch of it apparently being cultivated, and I thought truly a new spirit has come upon the South."

In the same issue of the magazine also appears a page one edi-

torial "Come Home," one paragraph from which follows:  
 "Come home" is the cry the South is sending broadcast to the millions of its people who are now living elsewhere. "Come home" and rear your children in a Bible atmosphere; rear them where educational and religious opportunities can be found in every community. "Come home," where climatic conditions and what we have termed atmosphere as distinct from climate—the atmosphere of love, of kindness, of hospitality—make life worth living. "Come home" to a section which has been more richly endowed than any other part of the world in material resources and in opportunities for upbuilding."

### THE TELEPHONE

President Walter S. Gifford defines the idea and aim of the American Telephone and Telephone Company and its associated companies as a telephone service for the nation, free, so far as humanly possible, from imperfections, errors or delays, and enabling at all times anyone anywhere to pick up a telephone and talk to anyone anywhere else, clearly, quickly, and at a reasonable cost.

That is a pretty big order but we have to admit that the year 1926 has brought this service nearer the goal.

Many telephone subscribers think that an unnecessarily long time is taken by the operator, in answering a telephone call after the receiver is removed from the hook, but the average interval of time consumed in answering more than 70,000,000 calls a day is 3.7 seconds, or less time than it takes to count four, according to figures compiled by the Utility News.

Short as this interval is, it must be remembered that it is an average speed and that many calls are answered in even less time. Check-ups by the telephone company show that about three per cent of the answers are over ten seconds, and only one call out of 1,000 is over twenty seconds.

Then, again, the time consumed after the call is answered, and the connection with the telephone desired is completed is apt to be overestimated. Figures show that the average time to complete a call from one office to another is thirty seconds, of which the operator takes about three and one-half seconds to answer, about four seconds to receive and acknowledge the number, with a pleasant thank you, two seconds to obtain access to the call circuit, four seconds to pass the number to the distant office to get a line assignment, and about one and one-half seconds to complete. The ringing is mechanical and the distant operator takes about two seconds more to insert the plug and start the ringing. On the other hand the subscriber at the other end of the line averages eleven seconds in answering the bell, making a total elapsed time of twenty-eight seconds average from the time a subscriber starts to make a call until the party called answered.

Another factor in business calls which extends the time is where the calling party makes the call through a private switch exchange. This adds from ten to twenty seconds in the elapsed time. In large centers from seventeen to thirty-eight per cent of all telephone calls come through branch exchanges.

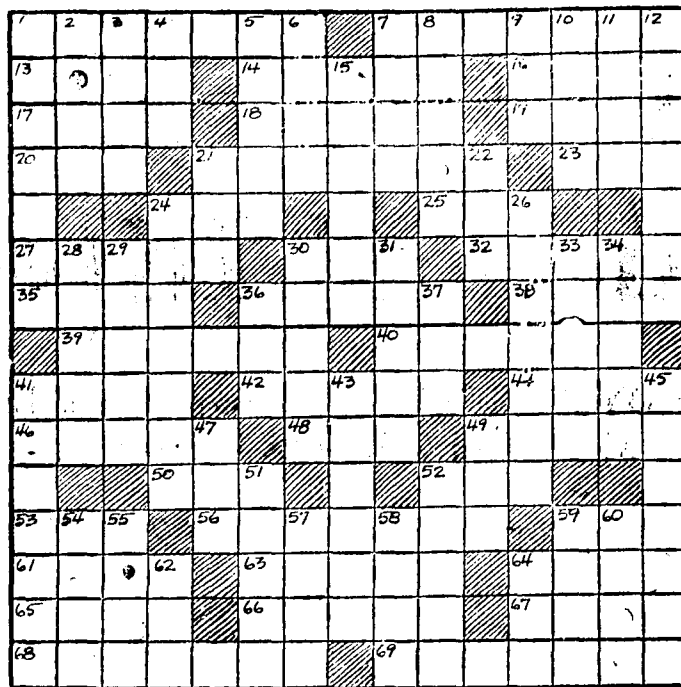

So—don't lose your patience when making a telephone call—remember you are one of seventy million and that a good deal of red tape has to be gone through with before the call is completed and that this red tape is handled in an unusually rapid manner to secure your number for you. The above figures based upon actual checks show there is no lost motion in putting through the millions of daily calls.

Many improvements are now under way in Oakwood cemetery and soon the handiwork of man will be touched by the magic wand of Mother Nature and a coat of verdant green will fall gently over the trees and shrubbery dissolving the somber rust of winter and the blooming of vari-colored flowers planted by loving hands will make bright spots of color in the picture.

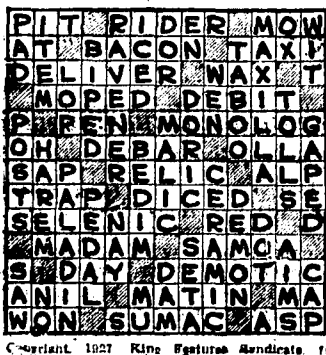

It takes an expert accountant to figure baseball averages now—that is salary, baseball averages. The dollar mark should be carried in the percentage column in the future.

Music lovers everywhere are anxious to know when Italy's great new national theatre will be completed. There is some eagerness to hear Mr. Mussolini sing the Sirenetta from Lucia.

## PREVENTION OF DISEASE

(Cummings from Hygea published by the American Medical Association and furnished the Daily Sun by the Navarro County Medical Association.)

### Protecting the Hands From Household Tasks

Women are constantly struggling to maintain beautiful hands in spite of the many demands made on them in this age, when more and more women are performing their own household tasks. Constant immersion in soapy water takes its toll from the hands, and while brushes are helpful, they cannot substitute altogether for the fingers.

Because the hands perspire freely in rubber gloves with no opportunity for the perspiration to pass through the gloves, cotton ones may be worn under the rubber ones, advises Dr. Herman Goodman in Hygeia for March. If the period of use is long, as in spring cleaning, the cotton ones should be changed.

After the work is done, the hands should be washed in lukewarm water with clean soap, being immersed for only a short time. Then they should be thoroughly dried, special attention being given to the spaces between the fingers and the grooves about the nails. Glycerin and rose water or cocoa butter may be rubbed over the hands. Gentle massage from the tips of the fingers to the wrists is restful.

The skin on the hands cannot be in better condition than that on the rest of the body, and beauty of skin depends on general health.

### How to Keep Children From Sucking Thumbs

In spite of the many theories about it, thumb-sucking in the infant is apparently quite natural and occurs for the first time by accident in the course of the infant's explorations with himself, states Dr. Frank Howard Richardson in the March Hygeia. For this habit, prevention is far more important than cure.

The best method of breaking the habit in a small child or a baby is to use elbow cuffs or splints. These are made of cardboard rolled to form cylinders and held in this shape by paper clips. They are slipped on and held in place by turning the skirt sleeves back over the edges like cuffs. Since the child cannot bend his elbows with these cuffs on, he cannot get his thumb into his mouth. They allow every other variety of arm motion, however.

The older child is best handled by a chummy little talk with the person who is on the most confidential terms with him. This must not be a formal affair, but in the course of a picnic or walk the subject can be casually brought up for discussion. The child needs sympathy, patience and kindness, and harsh measures will be unavailing for such a child is really suffering, says Dr. Richardson.

### Study Conditions At Basketball Tournaments

More and more people are demanding an answer to the question, Are basketball tournaments as now conducted harmful to the health of the boys and girls who compete in them? As a result, the Indiana high school athletic association will begin this year at the state tourney a study of the conditions in an effort to find just what the effect is on the health of the players.

Physicians will make physical examinations of the players, using tests that will give the required indications as to excessive exertion and harmful after-effects. The studies, to be satisfactory, must include a sufficient number of cases so that the data will be statistically reliable and must cover enough time for individual biographical studies that may reveal the tendency toward after-effects in later years, states Harlie Garver in Hygeia for March.

## Moline Farm Implements

## COMMISSIONERS COURTS HAVE RIGHT SPEND ROAD MONEY

By Associated Press.

Austin, March 9.—Right of a commissioners' court to expend road bond money today was upheld by Supreme Court.

The case originated in Baylor county when E. G. Quisenberry and about 49 others brought suit against the Commissioners' Court to prevent it from spending money obtained from bonds voted in the establishment of a road, the status of which was not clear. Trial court refused the injunction and the Second Court of Civil Appeals certified questions asking whether the ruling was correct. The Supreme Court today upheld the trial court, saying the Commissioners' Court had the right to spend the money so voted.

### KNOW YOUR CHICKENS

Winter eggs are the ones that pay. Our Leghorn at John Tarleton College egg laying contest is the highest in six hundred for first three winter months. Our hens at A. & M. College contests are among the leaders. You can own hens like these. Just get your hatching eggs, baby chicks and baby pullets from us. A few fine coxeris left. Write or come by for free catalogue.

## TOM LOVE SAYS HE NEVER WAS MEMBER KU KLUX KLAN IN TALK BEFORE SENATE

By Associated Press.

Austin, Texas, March 8.—Senator Thomas Love of Dallas denied today on the floor of the Senate that he had ever taken the oath of the Ku Klux Klan, or had ever sought or received the support of that organization.

The question came up during debate on a resolution by Love calling for appointment of a committee of five to investigate the activities of lobbyists. Senator Bowers, speaking against the motion, "marked that it was common talk that Love was preparing to run for governor."

"Gentlemen, if I had half the publicity Love will get and half the money that will be spent on his campaign fund, I would run against him and we would have

a real old-fashioned Ku Klux Klan fight," Bowers said.

"I will consent not to run against you," Love replied. "If you will vote with me for this investigation."

Bowers then said that he couldn't have much chance because Love had the support of the Klan and said that he had never voted with that organization except when he thought that it was supporting the proper things. Senator Bailey then asked Love to say whether he had ever taken the Klan oath.

"So far as I know," Love said, "there is no such thing, and furthermore I never applied or received membership in that organization or attended any meeting of the organization."

## GEORGIA SHERIFF ARRESTED IN CONNECTION WITH HOODED ATTACK ON SOPERTON EDITOR

By Associated Press.

Soperton, Ga., March 8.—Sheriff W. L. Thigpen, of Treutlen county, two farmers and another man are charged with assault with intent to murder on H. M. Flanders, editor of the Soperton News, who was beaten senseless on the night of February 25 by hooded men.

The editor's cousin, Sheriff G. F. Flanders, of Emanuel county, made the arrests late yesterday, aided by his own deputies and two Treutlen county policemen.

The four men, Thigpen, Henry McLendon and Raymond Lee, farmers, and Raymond's son, Joe Lee, a filling station employee, were lodged in Emanuel county jail, unable to make \$3,000 bond. Each refused to comment.

Sheriff Flanders, active in the case since his cousin stumbled into his own home sick and bleeding, announced that other arrests were to follow.

Flanders, confined to his home by a spinal injury and severe shock, supposedly furnished the information on which the arrests were made. At the time of the flogging he was able to give only a sketchy statement, though he is said to have recognized some of the men who beat him.

Editorials in the News, condemning run running in the county and state and demanding from agencies of the law a relentless war on bootleggers were believed by residents to have brought about the flogging.

## TWO DEATH SENTENCES ARE AFFIRMED BY HIGHER COURT ONE FOR NINETY-NINE YEARS

By Associated Press.

Austin, Texas, March 9.—The murder conviction of Tillman Simmons of Bexar county in connection with the killing of R. F. Usry, August 20, 1924, was upheld today by the Court of Criminal Appeals and the death sentences were affirmed.

The court denied a motion for rehearing for F. M. Snow, Erath county, convicted of killing his stepson. The death sentence recently was affirmed.

The 99-year sentence imposed on Lester Pank in Navarro county in connection with an alleged attack on Miss Bess Hildebrand was affirmed.

Because it found several technical errors, the court reversed and remanded the case of H. B. Roebuck, given life sentence on conviction of murder in San Augustine county of Otis Harvey and also the life sentence of Will Edmondson, San Saba county, on conviction for the slaying of Fred Bollinger.

The 25-year sentence assessed

Finis Gorce on murder conviction following the slaying of S. C. McClurkan in Jones county was affirmed as was a 35-year sentence of Gilbert McGuffey convicted on the same charge in connection with the killing of Ben Savage in Taylor county about February 21, 1925.

Other Court Proceedings.

Austin, Texas, March 9.—Proceedings in the Court of Criminal Appeals today include:

Affirmed: J. H. Logan, Franklin; Eugene Hagood, Jones; Slim Jordan, Nacogdoches; Jim Brant, Potter; Gilbert McGuffey, Taylor; Marvin Robinson, Upshur; Cleo Jones, San Augustine; Lee Harris, Coleman; J. O. Kile, Potter; S. S. Birdwell, Taylor; Finis Gorce, Jones; Dan Patterson, Limestone.

Reversed and remanded: P. B. Roebuck, San Augustine; Will Edmondson, San Saba.

Appeal dismissed at appellants' request: Scotty Hill, Grayson.

Appeal dismissed: Scotty Hill, alias Bill Hill, Grayson.

## ENDLESS HUMAN CHAIN HELD CHICAGO MAN IN LAND LIVING WITHOUT NORMAL BREATHING

By Associated Press.

Chicago, March 9.—An endless human chain held Albert Frick in the land of the living today while doctors hovered over the 22-year-old youth who was still alive although he had not drawn a normal breath for three days, as a result of paralysis of the diaphragm.

Propped up in bed at an angle of 45 degrees, he was able to converse briefly, physicians redoubled efforts to prevent a fatal instant break in the rhythmic procession of men who have been inducing artificial respiration for the stricken young salesman since last Sunday morning.

Two by two they approached the bed, swayed back and forth for 15 minutes, one on each side, working feverishly in exact rhythm, pressing their hands down on the victim's lower chest, then relaxing them in an endless respiratory effort. Twenty-four men have worked in an unbroken continuation of eight-hour shifts while others of his friends stood ready to act as substitutes.

Started Sunday Morning.

Without a break, the process has gone on since Sunday morning, when creeping paralysis took its first in nerve controlling the youth's diaphragm. The case seemed virtually hopeless but doctors immediately set up an artificial respiration and Frick responded

to the treatment. Hoping against hope, the medical men sent for a call for volunteers and employees in Frick's firm trooped in. They were hastily instructed in the principles of artificial breathing, and ever since have taken up the battle, the two physicians waged alone for hours, each alternately compressing and expanding one lung, pumping oxygen for the tissues.

Physicians said they were witnessing one of the most remarkable achievements in medical history as 60, 65 and 70 hours passed and the spark of life lingered.

The fact that Frick could talk, when his tongue was completely paralyzed Sunday, encouraged those at his side but doctors said they were fighting against time in their effort to have the youth breathing again before his body would succumb to the shock of the artificial respiration wearing away strength even as it saved his life.

Parents at Bedside.

At the bedside were the youth's father and mother, marveling at "such devotion to a comrade," watching the battle as they have watched it for four days.

There for a brought Frick to the hospital Sunday when the first signs of the numbness, diagnosed as Landry's paralysis, were discovered three days after the youth had had two teeth extracted. By

Sunday the paralysis had numbed his legs and was creeping up his body, until it took possession of the diaphragm, and the chest wall muscles.

The patient has been unable to eat for many hours and has been given nourishment by a glucose solution, injected into his paralyzed legs, a quart at a time.

Since Sunday he has slept less than one hour, physicians said.

A slight improvement in Frick's condition was noted today. Doctor's said the paralysis of his throat had slackened slightly and he was able to take a little food.

His fellow employees continued to provide artificial respiration.

## LOCAL RAINFALL AMOUNTED TO MORE THAN INCH TUESDAY

Monday at noon 3.3 of an inch of rain had fallen in Corsicana and the slow rain, which continued through the night, ran the total up to 4.10 inches at 8 o'clock Tuesday morning. Rain continued until noon hour Tuesday.

Roads throughout the county were rapidly becoming impassable and farm work has been stopped a week or ten days.

Creeks in all sections of the county are getting out of banks.

## COURT HOUSE NEWS. From Wednesday's Daily. County Court.

Two negroes, Veldridge Tolliver and Gene Weatherhead, were fined \$10 and given five days in jail in the county court on charges of theft.

It is alleged that they stole two leather collars and a check line from the barn of J. M. Blackburn and a check line from a negro. When advised that the property had been recovered, it was the first time that Mr. Blackburn had known that his barn had been entered. Weatherhead is a blind negro.

Justice Court.  
Judge Sam B. Jordan fined two white men Tuesday for affray. The fines were \$4 and costs.

Judge Jordan fined one person for the alleged violation of the highway law.

Warranty Deeds.

H. B. Bentley, et ux, to R. H. Williams, Lot 2, Block 643, Cal Keer's Addition, Corsicana, \$150.

Mrs. H. B. Jones to Ed Drosser, Lot 2, Block 122, Koren, \$2,000.

M. A. Waters, et ux, to Mrs. Jessie Humphries, 5.20 acres of the James Smith League survey, \$3,000.

Assignments.  
L. S. Clark to Godley Oil and Gas Company, 1.16th interest in royalty of 77.25 acres of the S. F. McCandless survey and 2 acres of the A. J. Morgan survey, \$1,200.

Marriage Licenses.  
J. L. Knobles and Mary Eliza Webb.

## ACTIVITY RESUMED IN SHALLOW FIELD DESPITE MUCH MUD

Despite the mud and slush caused from the heavy rain Monday and Tuesday operations in the Chambers Creek oil field were resumed Wednesday morning.

The Magnolia Petroleum Company spudded in on the Hardy-Halbert well 300 feet west of the Rufus Hardy No. 2 and making good progress Wednesday. It was officially stated that the Magnolia Company had started drilling plug Tuesday evening on the Hardy No. 3, offset to the South of No. 1, which is set around 1,250 feet. The Magnolia Company started Tuesday evening to cement casing on the Hardy No. 2, offset to the West of No. 1, around 1,250 foot depth.

Attempts to bail out the Magnolia Stout No. 1 were futile. The bailer would not go down and it is thought that the hole is bridged over. Preparations were being made Wednesday to wash the well out.

The Cranfill and Reynolds well on the Molton tract east of the Chambers Creek was reported shut down on account of high water.

A derrick is being constructed on the B. B. Munsey farm about two miles west of the Chambers Creek field and in line with the string of wells running east and west.

Considerable excitement has been created in the Jacksonville district due to the good showings of oil found in the Humble Oil and Refining Company's Elliott and Clark No. 1. Several good cores have been taken from 3,840 to 3,847 feet. It was reported that casing will be set around this depth. It is in a strictly wildcat territory and is creating no little interest. The Humble Company is understood to have around 35,000 acres in this district.

The Humble Oil and Refining Company was drilling in land sand on the Southern Pine and Lumber Company No. 1, near Palestine at 615 feet Tuesday.

The Humble Company was reaming out the Ella Dodge No. 19, in the Mexia field Tuesday at 2,671 feet.

E. L. Smith, et al., were drilling in shale and lime on the Steubenrauch No. 1, in the Mexia field. This well is in search of the Trinity sand which is thought will be found around 5,100 feet.

The Texas Company continued drilling on the Cheney B. L. south of the Powell field Tuesday night. The well was shut down a couple of days on account of re-socketing more surface casing. The depth of the hole when shut

down was 3,023 feet.

Reiter, et al., on the Van Hooks Stubbs No. 1, M. Boren survey in the Currie-Richland area was reported coring around 2,910 ft.

The Sun Company was still rigging up with a rotary rig on the Swink C-1, in the Richland field to set casing below salt water found around 5,400 feet.

## BUSINESS BETTER IN WEST TEXAS AT PRESENT THAN EVER

By Associated Press.

Stamford, Texas, Mch. 9.—Reports to the West Texas Chamber of Commerce indicate that business conditions in West Texas generally are the soundest in the history of the region. Where farmers and business men thought they were ruined by the low price of cotton, business did not reflect the pessimistic forecast, the reports state.

Farmers who could not sell their cotton for what it cost to raise it, found after a period that their large stocks of feed, of hogs, of poultry and dairy stock, acquired in a campaign for diversification sponsored by the Chamber of Commerce, more than made up for the money they lost on cotton. Compared with former years when such supplies had not been raised, the farmers' condition this year has been better than ever, according to the Chamber's data.

Business men who were depressed when fall buying hit a slump report that their trade has maintained a steady level throughout the year, even avoiding the usual post-holiday decline.

They ascribe the unexpected clearing of their shelves to a speedy buying over a number of months as contrasted with rushed fall buying and a resultant slump as in former years.

The doctrine of diversified farming is back of the general prosperity in West Texas, declared the reports.

## MUCH INTEREST IN ANNUAL STATEWIDE CLEAN-UP CAMPAIGN

Special to the Sun.

Austin, March 8.—Much interest is being shown in the statewide cleanup campaign sponsored by the State Board of Health for the week April 3 to 9. Information received from a large number of municipalities indicate that intensive cleanup activities will be conducted under the auspices of city officials in co-operation with Chambers of Commerce, Civic clubs, women's clubs, Boy Scouts and school children. Cleanest-

town contests will also be conducted in a number of counties, plans already having been made for this work in Hill county under the leadership of the Women's Federated Clubs along the lines of similar contests during the last several years.

Activities Stressed.

According to Dr. J. C. Anderson, state health officer, general cleanup activities call for clean streets, alleys, beautification of parks and vacant lots, sanitation of public buildings, drainage, and eradication of mosquito breeding places. Other things stressed by the State health officer for consideration by towns and communities conducting campaigns are: Safe water, milk sanitation, sewage disposal, garbage disposal, vaccination against smallpox, diphtheria immunization and birth registration.

"Householders," Dr. Anderson stated, "should ascertain if their local water supply is given Grade A rating by the State board of health, and if their city commissioners have adopted the standard milk ordinance. Time should also be given during this week by householders to thorough cleaning of premises, repair of screens, check-up of plumbing equipment, and where possible, repainting of dingy houses and beautification of grounds."

## THIRD TERM FOR COOLIDGE IS URGED AT NEW YORK MEET

By the Associated Press.

New York, March 9.—"Cal" and "Al" figured today in accounts of some of the first discussions of presidential prospects to develop since the session adjourned.

President Coolidge was boomed for another term at a Republican meeting in New York, while Democratic leaders announced they were already at work in behalf of Governor Alfred E. Smith and "proposed to nominate him."

The boom for the governor was sponsored by George W. Olin, Tammany leader, and John F. Carey, chairman of the New York State Democratic delegation in the House of Representatives. They expressed optimism at Tammany Hall.

Coolidge enthusiasm was manifested at a gathering of King's County Republicans at which the keynote was sounded by Albert Olin, general, who said the third term question was "a refined form of quibbling."

He added that the Empire State, which has given Governor Smith four terms, would be in the vanguard for Coolidge.

The men boomed kept silent as to their availability. "I am staying here in Albany and attending to my own business and that of the people of the State," was Governor Smith's only comment.

From Chairman Oldfield of the Democratic congressional cam-

paign committee, in Washington came a remark as to President Coolidge's plan to spend the summer somewhere in the West, in the region where the boom of Frank O. Lowden has been prominent, especially since President Coolidge's veto of the farm relief bill. Oldfield said the President's plan "would naturally suggest that it was prompted by an intention to angle for votes instead of fish."

At the Tammany Hall discussion Olin said that while Governor Smith had in no way indicated whether he would be a candidate, reports from all sections of the country showed that the Governor was a favorite for the Democratic nomination.

Representative Carey declared Smith "will get some delegates from Texas," while other party leaders said they had received reports that Governor Dan Moody of that State has been mentioned as a running mate for the New York governor and would confer with him soon at Albany.

"Thanks for the compliment," said Governor Moody when the report reached him in San Antonio, "but who is going to pay the railroad fare?"

## TRAINING SCHOOL TO BE CONDUCTED HERE NEXT WEEK

A training school under the personal direction of J. Adam Puffer, nationally known boys and girls worker, will be opened in Corsicana Monday, March 14, and will be held in the Educational Building of the First Methodist church. The classes will be held at 7:30 o'clock each evening and will continue through Saturday.

The school is being promoted by the Rev. Paul J. Merrill, president of the Pastors' Association; W. H. Hastings, president of the Corsicana Y. M. C. A.; W. A. Tarver, president of the Boy Scouts, and Mrs. Elbert Williams, president of the Camp Fire Girls.

The purpose of the school is to train leaders of boys and girls so that the above mentioned organizations may do better and more efficient work in Corsicana. It is pointed out that although the interest of the public in these character building institutions is very active, there exists a great need of trained leaders. The work, although managed splendidly by the general executive, now is really suffering for lack of group leadership.

Those in charge of the school feel especially fortunate in securing the services of Mr. Puffer as chief inspirational guide. He travels yearly from coast to coast telling the public what to do in the guidance of boys and girls.

Over one hundred are expected to take advantage of this opportunity in leadership training and be in regular attendance at all of

the classes.

Leaders who can develop character, sportsmanship and social life in small groups of young people in the city are in great demand. It is pointed out that there are many who have the desire to take up this work but do not know how. This is the purpose of the school—to develop leaders of youth.

## PRESIDENT WILL SPEND SUMMER IN WEST SOMEWHERE

By Associated Press.

Washington, March 8.—President Coolidge intends to spend the summer in the West.

He has made no selection among the many summer residences offered him in Western states, but he has made up his mind to establish his summer White House somewhere beyond the Alleghenies.

Offers that he regards as very tempting have come to him from places covering the stretch from Michigan to Utah.

He does not want to spend the summer too far away from Washington but he feels the West would provide better than any other part of the country, the elevation and cool climate which he intends to make a prerequisite of any selection he may make.

## AMERICAN HOME IS STILL SAFE EVEN IF WOMEN ARE WORKING

By Associated Press.

Des Moines, Iowa, March 8.—The American home today is as free from disintegration as in centuries past, in the opinion of Mrs. Maggie W. Barry of College Station, Texas, chairman of the American Homes Department of the General Federation of Women's Clubs, here for the American Homes National Congress.

Mrs. Barry defended women who work, asserting that women always have produced. "Our mothers baked their own bread, wove their own clothes, raised their own gardens, and helped butcher their own meat."

The women of today, she pointed out, work in business offices and these things done. "It's all nonsense to say that women went outside the home looking for independence," she declared. "They went out to work because they had to, and they are keeping at it because they have to."

### FARMERS SHORT COURSE NAVARRO COUNTY NEXT WEEK

#### AGRICULTURAL AND OTHER EXPERTS WILL HOLD FIELD MEETINGS IN COUNTY

A most interesting program has been worked out for the farmers and home-makers short course in co-operative extension work in agriculture and home economics which is being sponsored by the A. & M. College and the United States Department of Agriculture co-operating under the supervision of County Demonstration Agent Henry Gentry, and Miss Elma Lawson, home demonstration agent, in Navarro county.

Four one-day field meetings for men, women, boys and girls of Navarro county will be held in four sections of the county. Practical demonstrations and lectures, farm and home problems will be given by specialists from A. & M. College Extension Service, and others.

The program starts at 10 a. m. every day and will continue throughout the day. Every person in the county interested in better agriculture and home economics are cordially invited and requested to bring their lunch which will be spread on the ground in picnic style.

In the joint program for men and women which heads the program, Mr. Reed, poultry specialist of the A. & M. College, will speak on "Profitable Poultry Production."

Other speakers on the program each day are as follows: "Making Farm Homes Convenient" by Miss Elma Lawson, "What Shall We Have for Dinner?" by Miss Bessie Edwards, assistant State home demonstration agent, "Building a Greater Navarro County," by F. N. Drane, and J. L. Halbert.

In the sectional meeting the men speakers will be: J. P. Rosborough, horticulturist, who will speak on "Orchards and Gardens," "Feed of Hogs," by Mr. Eudaly, swine specialist, "Safe Farming Program" will be outlined by G. W. Orms, district agent extension service. One feature of each day is expected to be A. K. (Dad) Short, who is called the "Moses of Agriculture."

"Preparing for Protective Foods in 1927, or Suggestions for a Spring Wardrobe" will be given by Miss Jennie Camp, district home demonstration agent. "Standard Household Products for Use for

### CHILDREN'S ILLS

Arkansas Lady Says She Has Never Found a Better Laxative Than Theford's Black-Draught.

Mineral Springs, Ark.—"We use Black-Draught in our family of six children," says Mrs. C. E. Nutt, of this place, "and we find it a good bowel regulator. I give it to my children for colds and constipation, and it certainly is very helpful. I have never known it to fail them. Where there are so many children, it is a good idea to keep a laxative on hand, and Black-Draught is what we use."

"I have taken it myself for indigestion. I would feel dizzy, have gas and sour stomach. I would also feel tightness in my chest. I took a good dose of Theford's Black-Draught when I felt that way and it would relieve me. I would feel better for days."

"My husband takes Black-Draught for biliousness. He says he has never found its equal. When he has the tired, heavy feeling, he takes Black-Draught night and morning for a few days and he doesn't complain any more. I sure do recommend Black-Draught."

Sold everywhere. Get a package of Black-Draught, today. Costs only one cent a dose.

**Theford's BLACK-DRAUGHT**  
Purely Vegetable

Market and Exhibit" by Miss Bessie Edwards and Mr. Rosborough, "Making Farm Homes Attractive" by Miss Jennie Camp.

In case of bad weather provisions will be made for an inside meeting. "Come and spend these days in the interest of better agriculture and homes in Navarro county," says Mr. Gentry, county agent.

The meetings will be held at the following places: March 15, Geo. Weavers' farm, Pursley; March 16, R. R. Messengale's farm, Blooming Grove; March 17, R. J. Richardson's farm, Richard; March 18, Estes Bros. farm, and the Roane church. The morning meetings will be held in the church.

Married at Court House.

J. L. Knobles of Harris county and Mary Elza Webb of Ellis county were married at the Navarro county court house Wednesday afternoon. The ceremony was performed by Warren Hicks, county judge, in his office.

Mr. and Mrs. Knobles will make their home at Pelly, Texas.

### MUSEUM SITUATION IN TEN POPULOUS STATES STUDIED

#### TEXAS ONLY STATE AMONG TEN WITHOUT ANY MUSEUM SYSTEM

Special to the Sun.

Austin, Texas, March 9.—A study of the museum situation of the ten most populous states of the Union has been made by J. E. Pearce, professor of anthropology in the University of Texas and president of the State Museum Association, which is working toward the establishment of such an institution in Texas. He points out that the state of New York founded a museum when its wealth and population were only a fraction of those of Texas at the present time. The New York museum has become the most active in the country and one of the greatest in the world. Considering these museums of other states, for which Texas is furnishing many specimens, Mr. Pearce says:

"Of the ten most populous states of the Union, according to the last census: New York, Pennsylvania, Illinois, Ohio, Texas, Massachusetts, Michigan, California, Missouri and New Jersey all have state museums, or museums subsidized and supported, at least in part, by the state except Texas. Missouri and Massachusetts, Massachusetts within her borders, the city of Boston being a museum center. Missouri has one growing historical and archaeological museum in St. Louis and Kansas City has recently been given \$10,000,000 in a bequest from one of her citizens for founding a museum."

"Texas, then, the fifth among the states in population, is the only one of the first ten that is entirely without any sort of museum facilities except for two small municipal beginnings in Houston and San Antonio. She has furnished much of value to the museum collections of other states, and even of foreign countries. Two expeditions from the North are operating in the state at the present time, gathering museum specimens; one from Michigan is digging up funeral mounds along the Red River, and one from Maine is getting out the great petrifaction of the last Ice Mountains. Texas has nothing of her own that can be called a museum, and if she doesn't get busy soon, she will have very little left, in some fields, with which to build up a museum in the future."

### VALIDITY OF LAW AUTHORIZING LEVEE DISTRICTS UPHeld

#### SUPREME COURT OF TEXAS PASSES ON CASE ORIGINATING IN ELLIS COUNTY

By The Associated Press.

Austin, Texas, March 9.—Validity of the law authorizing creation of levee improvement districts today was upheld by the Supreme Court.

The court adopted the opinion of the Commission of Appeals to which it had referred the case in question, which involved the Ellis County Levee Improvement District Number 3.

The state joining the district brought suit against W. J. Rutledge, Jr., and others for collection of delinquent taxes.

The trial court had taxes barred by the two-year limitation rule could not be collected.

The court of Civil Appeals reversed this holding and the Supreme Court today, in reversing the Appellate Judgment and affirming the trial court's decision, struck out and denied the allegation that the law authorizing creation of levee districts is not constitutional.

### ANOTHER CONVICT PARDED GETS IN TROUBLE AGAIN

By Associated Press.

Sherman, Texas, March 9.—That only a small quantity of liquor was involved was given by Governor Ferguson as a reason for granting on January 15 a full pardon to Scotty Hill who today withdrew his appeal from two convictions here on liquor charges.

A copy of the proclamation, received by County Attorney R. M. Finley today, shows that Hill, against whom now seven cases are held on District Court dockets, including one for assault with intent to murder, was restored to citizenship.

**ROADS VERY HEAVY BUT PASSABLE MOST SECTIONS WEDNESDAY**

Dirt roads of the county were extremely heavy but light traffic was getting through on the principal routes with chains and by being pulled by maintenance teams in the Dawson section it was reported at the Chamber of Commerce at noon.

Due to the extremely heavy north rains, the long route by Waxahachie to Dallas was the choice of most northbound traffic. Dirt roads generally through this section of Texas were reported extremely heavy and passable with difficulty.

## COUNTY NEWS

### RICE

Special to the Sun.  
Rice, Texas, March 10.—Farming in the Rice section will be stopped for several days, due to the heavy rains which fell here Monday and Tuesday. Most farmers were getting along well with their work.

Mr. and Mrs. J. B. Fortson of Corsicana were guests of Mrs. W. D. Haynie and Mrs. J. A. McGee Sunday.

Mrs. Connel of Mexia is here this week visiting her daughter, Mrs. Love Fortson.

Dr. and Mrs. L. P. Sessions of Round Rock were here the latter part of last week visiting Mrs. W. D. Haynie and Mrs. J. A. McGee.

Mr. Rose Harper who has been here several months with his father, Capt. J. M. Harper, went to Houston on a business mission the first of the week.

J. W. South who travels for the Mount City Paint Co., is here with his family this week.

J. E. the little son of Mr. and Mrs. Roy Smith, of Baytown is here spending several weeks with his grand parents, Mr. and Mrs. A. W. Christian.

B. H. Clark went to Dallas Thursday to take medical treatment. Mr. Clark is gradually improving from an illness that has kept him from his business the greater part of the winter.

A fine baby girl was born to Mr. and Mrs. E. B. Walker at the Ennis hospital last Thursday morning. J. Lee Bell of Lubbock was a Rice visitor here this week.

J. M. Bartlett of Dallas spent Sunday here with his parents, Mr. and Mrs. B. C. Bartlett.

Miss Queena Bartlett of Kosse spent Sunday here with home folks. Horace Polan of Palmer spent Sunday here with home folks.

Mr. and Mrs. Wallace Andrews and Mr. and Mrs. Edwin Gallimore of Olden, are here this week with their parents, Mr. and Mrs. J. A. Boucher.

Mr. and Mrs. John Clark and baby visited Mrs. Clark's mother in Corsicana Monday.

Mr. and Mrs. Rufus McDowal were here Monday visiting relatives and friends. Rufus has now located at Corsicana and is employed by the Magnolia Oil company and is working on the Hardy lease.

Mr. and Mrs. B. H. Stewart of Fairfield, visited Mr. and Mrs. John Sloan Sunday.

Miss Mary Barkley of Houston visited her aunts, Mrs. Haynie and Mrs. McGee, here last week end.

Mrs. Kestler Bradley has returned from a visit with home folks at Kerens.

T. A. Scott, who has been ill for the past two months following a stroke of apoplexy continues to improve slowly. He is able to sit up at times but is unable to use his right limbs, and has not yet regained his speech.

Mrs. W. D. Haynie still remains in a serious condition. She had never fully recovered from her illness which began last Thanksgiving Day when she fell and broke her hip. For several weeks following the accident it was thought that she could not survive but had practically recovered and was doing nicely until last week, when her condition again became serious.

The little eighteen months old daughter of Mr. and Mrs. Laythan died Monday evening at 7 o'clock, after a short illness. The remains were taken to Byrd for burial Tuesday evening.

### FROST

Special to the Sun.  
Frost, Texas, March 10.—Messrs. James Walter McCord, Wade Smith, C. O. Brown and son, Nolan, were in Corsicana last Thursday shopping.

Mrs. Chester Gilmore and children of Barry spent the week end with her parents, Mr. and Mrs. W. A. Ivy.

Mr. and Mrs. Joe Kelt and Mrs. S. L. Germany, near Dallas visited Saturday.

Mrs. T. H. Coley and children of Dallas are the guests of her parents, Mr. and Mrs. O. L. Brown.

Mrs. A. F. Mitchell is visiting relatives in Emory this week.

Mrs. H. H. Stephenson and little son, Henry Harrison and daughter, Miss Marguerite visited Mrs. Noel Hollingsworth of Mexia Saturday.

Mr. and Mrs. Searcy Heflin and daughter, Barbara an Dr. and Mrs. J. D. Hollan visited in Waco Sunday.

Mr. and Mrs. A. M. Keathley and daughters, Misses Evelyn and Frances, of Corsicana were the guests Sunday of Mr. and Mrs. Claude Tullos.

John Summers of Pandle, Texas, was here Sunday and Monday, visiting his parents, Mr. and Mrs. Chas. Summers.

Messrs. Fletcher Bonnett, Jack Powers and Coleman Smith motored to Dallas Sunday for the day.

Mr. and Mrs. George Spencer and son of Corsicana were the guests Sunday of their parents.

Mrs. J. M. Beane and little daughter, Mary Vann, visited relatives in Corsicana Sunday.

Mr. and Mrs. J. A. Ledford, Mr. and Mrs. R. L. Templeton and Mrs. John Matlock visited in Waco Sunday with Dr. Matlock, who is still not able to leave the sanitarium.

Miss Josephine Ivy visited friends in Waxahachie Sunday.

W. J. Saunders of San Angelo was the guest Sunday of his father, Mr. R. J. Saunders.

Jack Kelt spent Sunday in Dallas.

W. D. Long and sons, Floyd and Earnest, were in Waxahachie Sunday to see his son, Howard, who is in the sanitarium.

Mrs. A. L. Kelton of Dallas is visiting her parents, Mr. and Mrs. T. B. Rice. Miss Nellie Kelton who is teaching at the State Home, met her mother here for the week end.

Mr. and Mrs. Chester Brunner left last Friday for an extended visit with relatives of Anson, Texas.

Mrs. Hattie Hightower and daughter, Miss Mildred, were in Waxahachie Friday to attend the funeral of their grandmother.

Rev. and Mrs. Chas. Diltz and children visited in Waco Sunday afternoon.

Mr. J. B. Scott visited her parents in Ennis this week.

Misses Annie Lee Young, Phyllis Matlock, Elsie Keathley and Messrs. Errol Young and Ruben Croshaw, motored to Waco Sunday to see Miss Lila Fay Hightower.

Mrs. Sam Gerber spent Tuesday in Dallas.

Mr. W. C. Minns was on the sick list Tuesday.

Ralph Sanders left Saturday for the oil fields near Pecos.

Mrs. Molly Holloway and son, Tom returned home Tuesday from a visit with relatives of Fort Worth.

The citizens of Frost met Monday afternoon and organized a Frost Cemetery association. Mrs. H. H. Stephens, Mrs. S. O. Hyon, Messrs. L. A. Sanders, L. A. Morgan, Porter Johnson, J. M. Beane and Jerry Smith were elected board of directors.

Ralph Sanders and Claude Doyle left Monday for the oil fields near Pecos.

Mrs. Maggie Johnson is in Shreveport, La., to attend the W. M. Council meeting.

Mrs. W. A. Ross and children spent the week end in Blooming Grove.

Jeff Smith of Streetman is the guest of his sister, Mrs. Bettie Dunagan.

Mr. and Mrs. Rufe Trull and daughters, Florence and Mrs. Davidson were week end guests of Malakoff relatives.

Mr. and Mrs. Hubert Dickson of Dallas were the guests Sunday of their parents, Mr. and Mrs. F. E. Dickson.

Mr. and Mrs. John Stay and children visited in Waxahachie Sunday.

R. L. Templeton made a business trip to Dallas Monday.

### BARRY

Special to the Sun.  
Barry, Texas, March 10.—Saturday, March 5, was Trades Day again for Barry.

Several contests were engaged in, such as guinea race, potato race, throwing contest, and a few others, with a basketball game in the late afternoon between Barry and Shay. The scores were 44 and 18 in favor of Barry. However part of the Shay team was unable to come so they had to play their substitutes.

Mrs. R. E. McCarty visited relatives at Frost Sunday.

Mr. and Mrs. J. L. Bourland and Misses Ruby Thornton and Ruby McCarty motored over to Kerens Sunday afternoon to visit Miss Thornton's sister who is ill.

Mrs. Cole of the southwestern part of the state is visiting her parents, Dr. and Mrs. Worsham.

Mr. and Mrs. Dan Bell made a business trip to Corsicana Saturday.

Rev. H. B. Prather of Dallas filled his appointment at the First Baptist church Saturday evening, Sunday at 11 o'clock and Sunday evening. A large crowd attended the Sunday services.

Mr. and Mrs. J. W. Fields of Fortson were in Barry Friday afternoon of last week.

"Uncle Jim" Scoggins is convalescing nicely.

Mr. and Mrs. W. T. Woodruff of

Avlon visited Mr. and Mrs. J. E. Varnell Sunday.

Mrs. Claud Williams is spending the week with her mother, Mrs. J. Varnell, who is on the sick list.

Mrs. Cloe Wright made a business trip to Corsicana Monday.

Miss Frances Butler of Blooming Grove is teaching a class in expression, beginning Tuesday of this week.

Jim Carrol, W. O. Russell and Will Bryant attended the Fat Stock Show at Fort Worth the first part of the week.

Mr. and Mrs. Jerry Worsham returned to their home Sunday afternoon after several days visit with their mother, Mr. Worsham, who has been quite ill, but who is improving now.

Mr. and Mrs. Will Watson of Pinkston spent Sunday in Barry visiting Mr. and Mrs. Ernest Watson.

Mrs. J. K. Elkins of Bryan brought her little son, Billie, to a local doctor's office Saturday afternoon, suffering with a badly sprained ankle.

Mrs. Otha Varnell and boys, spent part of last week at Blooming Grove with her parents.

Mr. and Mrs. L. C. Boswell and Mrs. G. J. McCarty visited Mrs. C. L. Boswell of Blooming Grove Wednesday.

Mrs. C. L. Boswell is leaving Thursday for Carlsbad for a few months treatment.

The Forty-Two club has been the center of social attraction for the past week. The regular business meeting was held last Wednesday at the home of Mrs. L. P. Hodge.

Everyone enjoyed a very pleasant afternoon, Miss Marie Hodge and Mr. L. P. Hodge were especially

elated over the fact that they were the champion players of the meeting. At the close of the meeting, Mrs. Hodge served her guests hot tea, tuna fish sandwiches, stuffed dates and divinity. The guests of honor were Misses Geneva Watson and Lois Thomas and Mr. L. P. Hodge.

On Friday evening Miss Mills and Mrs. J. E. Varnell entertained the club and 12 young men with one of the nicest parties that has ever been given in Barry. Six tables were placed in the living room of the Varnell home and amid the

beautiful strains of radio music the fun and laughter began at 8 o'clock. Eleven o'clock came before we could realize that the hours had passed so quickly. Besides the regular club members the following guests were present: Miss Willie Mae Ragsdale, Messrs. Bob Watkins, Bill and Roger Cruise, J. E. Varnell, Kirksey Barnes, Ernest Watson, Murry and Reginald Woodruff, Paul McCarty, Delbert Coleman, Glenn Bell and L. P. Hodge. Miss Roger Cruise won the seven out of eight games. Miss Mills and Mrs. Varnell served their guests delicious fruit salad, whipped cream, and caramel cake.

# "FLIVVER" IS DOMINANT FACTOR IN LIFE OF NEW NEVADA GOLD MINING CAMP

By Associated Press.

Tonopah, Nev., March 10.—Weepah, new gold boom town of little tents and big dreams, built on the hope that the ore recently unearthed there which assayed \$78,000 a ton may be plentiful, today offered scenes never before witnessed in the romantic gold rushes of the west.

The dominant factor in the town's life is the "flivver." That old automobiles, tires wrapped with hay wire to give a good grip in the sandy soil and guard the rubber from occasional boulders, were climbing hills on which even a burro would have balked. Dust or mud, sand or gravel, the "flivvers" climbed up with much spluttering and skidded down with great rattling.

Klondike had her dog-teams. Tonopah had her mule, the whole west lays claim to the ox team, and Weepah has her "flivver." The little automobiles dash around

fields where heavier cars would be stuck in the soft soil. Wags declare that if the camp ever earns fame as a gold producer, she ought to adopt a flivver rampant as her coat of arms.

Life in Weepah has been reduced to a routine. The miners rise before daylight, cook breakfast at camp fires fed with sage brush, hop into their flivvers and hurry off to their claims, if they have claims, and to hunt claims if they are new arrivals.

A "boarding house" opened today, and Frank Horton's company will begin hiring a crew tomorrow and open a mess room for them, but at present every man must shift for himself. Horton said 150 persons slept in tents or under tarpaulins last night, while many drove to Tonopah after dark. The discovery of rich ore was made by Horton's son, Frank, and another youth last week.

## FARMERS SHORT COURSE TO BE HELD LIMESTONE COUNTY

Special to the Sun.

Mexia, Texas, March 8.—The third annual Farmers Short Course, fostered by the Mexia Chamber of Commerce, in cooperation with the Extension Department of Texas A. and M. College will be held at the Point Enterprise community on Thursday, March 24, according to an announcement by Jere Cason, chamber of commerce secretary.

Dinner will be served on the grounds and everyone is urged by the chamber of commerce to bring what they wish to eat with the fish dinner, which will be the chamber.

H. W. Tolson, will be the community host while P. C. Haines,

county agent, Miss Sadie Hatfield, county home demonstration agent, and Mr. Cason compose the committee on arrangements.

A Garland Adair, editor of The Mexia Daily News, will deliver an address on development of this district.

The following experts from the extension service have already agreed to assist in the program by giving lectures and demonstrations throughout the day:

R. R. Reppert, care of orchards; E. R. Endaly, livestock; G. W. Orms, field crops; Jas. F. Roseboro, rough, horticulture; P. G. Haines, poultry and general farming conditions.

In the women's department Miss Jennie Camp, district agent of the extension service, will lecture on beautification of the farm home-stead, while Miss Hatfield will discuss balanced meals.

Large crowds are expected at the meeting.

### BERLIN

Bootleggers of Grain Alcohol, Illegally Distilled, Are Increasing

By Associated Press.

Berlin, March 5.—Bootleggers of grain alcohol, illegally distilled from a patented motor car "gasoline," are increasing in such numbers that the Federal government is considering enlarging its force of liquor agents to cope with the new evil. Since Cologne police seized two stills and 5,000 gallons of alcohol and arrested two men on charges of manufacturing alcohol without license, raids in other parts of the country have disclosed that the extraction of alcohol from the motor fuel and its sale to liquor industries has grown to be a tremendous business.

The evil was more or less sponsored by the government itself in fostering the manufacture of a "gasoline" called Mogoplin to curb the heavy imports of gasoline until the Gerbus and Fischer processes of converting soft coal into oils and gasoline are adapted for commercial production. Mogoplin consists of 60 per cent pure alcohol and 40 per cent benzene and is sold for less than ordinary gas and is said to give more power per gallon. The Postoffice department and many bus companies use Mogoplin exclusively for their motor vehicles.

It is a comparatively simple process to redistill the fuel and get a grain alcohol which is virtually 100 per cent pure. About 3,000,000 tons of potatoes were used last year for the manufacture of alcohol for motor fuel, or 10 per cent of the total crop.

### Sharp Reminder

Leopold von Kleist, the new general legal representative for the Hohenzollern family, has had to learn that he can't put the Kaiser and king stuff over on the officials of the republic. As soon as he assumed office, he had a letterhead printed with the caption, "Representative of the Prussian Royal House." In his first letter to the present Prussian authorities, written on this stationery, he introduced himself as representative of His Majesty, the emperor and king. By return mail he received a letter reminding him that there had been a revolution in Germany, and that there was neither a Prussian royal house nor an emperor and king. Her von Kleist was quick to see the point, and the reminder sufficed for him to speak in later communications of the former royal house and the former emperor and king.

### Many Original Orders

A collection of 10,000 original military and civil orders and proclamations issued by Napoleon, the French crown and revolutionary authorities in the latter 18th and beginning 19th centuries has been acquired by the Alsace-Lorraine institute of the University of Frankfurt. The collection in part was purchased by anonymous persons from the estate of the late Professor Rudolph Reuss of Sorbonne university, Paris, and presented to the Frankfurt institute. It is one of the most valuable collections of its kind in the world, being surpassed only by that in the National Library in Paris. Most of the orders were printed in French and German, since they were intended for posting in Alsace-Lorraine.

### First Book Brought Kick

Margaret Kennedy, the dramatized version of whose novel "The Constant Nymph" is being produced on the German stage for the first time, said she got a greater kick out of the publication of her first and comparatively unknown book "The Lady of Lyndon" than anything she has written or thinks she will write.

Introducing herself to the German public by means of an interview Miss Kennedy said the publication of "The Lady of Lyndon" in the fall of 1923 fulfilled a dream of 20 years. "Nobody bought the book," she said. "Few critics praised it. But what did I care for such minor details? The point was that I wanted to write that novel from the time I was a youngster and I succeeded at what seemed to me old age."

"When my library agent told me William Heinemann, the publisher, wanted to see me, I jumped on the next train to London, bought a new hat and saw him. My speechless timidity at that time amused me to this day. But I was happy even then as I never have been since. If ever there was a thrill that comes once in a lifetime that was it."

### Play at Former Lives

Russian noblemen and former army and navy officers and their wives are acting as "supers" or "extras" in a film now being "shot" at the Tempelhof, Berlin studios of the Paramount-Metro-Galadwy-Ufa combination under the supervision of Charles E. Wittaker of Hollywood. The film is entitled, "The Last Waltz," manuscript by Alice Miller of Hollywood, with Suzi von France, Liane Hald of Austria, and Willy Fritsch and Karl von Schletlow of Germany in the leading roles.

"These Russians are the real stuff," Wittaker declared. "They will appear in a number of monumental court scenes, and their acting will be absolutely true to life as these 'extras,' unlike those in Hollywood, know court life and its intricate etiquette. There is many a tragedy concealed behind these smiling faces, however. What was formerly reality, they are now make-believe and a painful reminder of happier days gone by."

### PARIS

Poor Spelling May Keep Aristide Briand Out of Academy Francois

By Associated Press.

Paris, March 5.—Poor spelling may keep Aristide Briand out of the Academy Française, composed of forty "immortals," all supposedly quite literary.

The Foreign Minister is said to have cast sheep's eyes at a seat in the famous society but he has not announced his candidacy. Briand has formed more governments than any other man in France but hostile critics say he wouldn't last very long in a spelling bee. They refer to a 30 word note he wrote in which were two misspelled words and an error of syntax. The note, one of congratulation to a friend, is reproduced photographically in one periodical as proof of its content that "his literary qualifications are insufficient" for fame as a man of letters.

Briand started life as a lawyer but turned to politics early. Whether his educational shortcomings are real or fancied, they attract the greater attention because of his presence in the cabinet of Premier Poincaré. They have very little in common, Clemenceau is credited with a phrase, often cited, that runs:

"Briand knows nothing but understands everything; Poincaré knows everything but understands nothing." The Tiger's claws are sharp.

### Asked To Set Example

French families that have few or no children are getting thoroughly tired of being told that it is their duty to have large broods.

"Set the example," one of the fathers and mothers' representatives replies to a recent blast of population propaganda, much of it by bachelors, old maids and rich persons with few descendants.

Charles Richet, eminent authority on medicine and noted investigator of things psychic, is the latest to stir the small family people. As the father of seven he is qualified to speak.

"Nativity," says Richet, "is the only important problem for us to solve."

Prizes for large families in France, it is remarked, almost invariably go to poor persons. "It's the large family that keeps them poor," comments one critic.

In any case, whether France needs more citizens for industry or for the army, it is evident from statistics that the cry for "more children" hasn't had much influence.

The French man and woman say those who purport to speak for the inarticulate public, won't have children unless they know there is going to be bread for them and they find life is too hard just now. Others feel that the modern idea is that children are a burden.

### Dancing Landscapes

Dancing landscapes, the dizzy visual reactions of a gentleman with too much fire-water aboard, are presented to the audience at one of the "modern" theatres here.

The old device of scenery and objects moving horizontally and vertically has been altered. The front set is hinged in such manner that the whole scene leaps from one side to the other. The large window through which a village is seen, is twisted to the same degree, as is the village back of it.

The effect startles and amuses the spectators and gives something of the rocking sensation experienced when a motion picture aboard a swaying triplane is reproduced.

### Libel By Wireless

Abuse by wireless is worrying the French because of their peculiar libel laws.

The government has been asked to define the rights of those who think they have been unjustly treated by broadcasters and the government found new legislation is needed.

A person who is libeled or even mentioned in a newspaper or other periodical has the right to reply. He is entitled to give his side of the case in his own language, in the same place in the paper and at the same length as the offending passage. He can even unburden himself at greater length by paying advertising rates for the additional phraseology.

The right of reply does not hold good in wireless because the letters were not discovered when the French law was made.

Libraries Antiquated Paris is worrying about its antiquated public libraries and the public's decreasing use of them. Statistics show that fewer and fewer go to the city's bookshelves each year and for a long time sport the movies and fireless were blamed. A thorough investigation showed the libraries were behind the times.

There are 83 libraries but most of them are open only two hours each evening and are in charge of persons who get less than adequate laborers for the time they put in. The card catalogue system is not in general use and readers soon tire of searching for books they want. Certain libraries also specialize so that the resources of each place are quite limited.

So far there has been no suggestion of combining the many inadequate libraries into one, or into a few, well-housed, well-equipped institutions where the general reader or the student might find what he wished.

### LONDON

Sheik Books and Sheik Plays Have Been Scrapped in England by Public

By Associated Press.

London, March 5.—Sheik books and sheik plays have been scrapped in England. The public has tired of the turbaned everworked heroes of the desert and is looking for something new.

Fiction is very dull in the British markets at present and non-fiction books, especially biographies, are in much demand. Michael Sadleir's life of Trollope is having a big sale and another biography, Guedalla's "Palmerston" is in much demand. Of course the new prayer book is beating all competitors. Within two weeks after its release more than 30,000 copies of this "obeyless" prayer book were sold by the Oxford Press, which called 130 extra girls as typists and the demand which kept up with the demand which came from all parts of the world.

The novel which is selling best now in England is Lion Feuchtwanger's "Jew Suss." The hero is a refined rascal, a debauchee and oppressor of the poor who is hanged under very thrilling conditions.

Musical Evenings Resumed Musical evenings, the first since the war, have been resumed at the Austrian Legation in Belgrave square.

Prior to August, 1914, the Austrian Legation was famous for its musical parties, and there was great eagerness in society circles to be included among the guests for these events. The pre-war musical evenings now being arranged by Baron Frankenstein, the minister, are of a very high order, but the invitations are not nearly so extensive as formerly. The first program given by the Baron included the names of Elzabeth Schumann, Casadeo, "cellist, and Guilette von Mendelssohn.

Another Harold Lloyd. Another European crowned head is adorned with tortoiseshell rimmed spectacles. King Albert of Belgium is the latest convert and wore his spectacles during a visit with the queen of the Belgians to the Flemish Art Exhibition at Burlington House. King George and Queen Mary accompanied them during their tour of inspection and while King Albert wore his spectacles all the time, King George only brought his into use when inspecting the art exhibits.

### Simple Plays Popular.

Sir Barry Jackson, who created a sensation by producing the dress suit Hamlet, says he believes the British public is turning to simple plays, plays with deep emotion, broader and kinder humor, and boyish romance. He believes the public is really looking for more earnest note, such as was sounded by the religious dramas which lay the basis for all plays. In Sir Barry's opinion the pendulum is swinging away from artificial, man-made comedy of the propaganda (theatre of social and philosophical problems).

Eden Phillpott's "Golden Sands," which Sir Barry Jackson recently produced in London, bears out his theory, as the Haymarket Theatre is packed nightly to see this clean simple rural comedy and critics universally declare it is the outstanding success of the present London season.

Alfred Sutro, who has had several failures recently in spite of the great success of some of his plays written a decade ago, says the silent man who used to go so well with the public have been relegated to the background.

Will Be At Home Frederick A. Sterling, Councillor of the American Embassy in London who has been appointed American minister to the Irish Free State, will be perfectly at home among the Irish racing and hunting fans. For a number of years after he left Harvard Mr. Sterling was a rancher in the Rocky Mountain country, and is an expert horseman. He can ride an English flat saddle just as well as he can ride the old Mexican saddle in which Tom Mix and the other riding heroes of Hollywood make such a deep impression on movie patrons.

While First Secretary of the American Legation in Peking Mr. Sterling was one of the champion hurdlers and flatrace riders in the gymnasium of the Peking Club. And at various posts in Europe and South America he has kept up his riding.

### Women Pioneers

There were only 17 women in all British universities in 1877, and these pioneers were having a pretty lean time trying to gain higher education in the face of bitter opposition and sarcasm. Miss M. J. Tuke, principal of Bedford College for Women, who was educated at Newham College, Cambridge, and later a tutor there, in contrasting educational conditions of the 70's with the conditions faced by the 9,000 women in British universities today, said: "We were called 'wild women,' 'strong-minded,' 'bluestockings,' 'dreadful,' 'manish,' 'aesthetic,' 'unfeminine,' or merely untidy. Our hair was ruffled and short and we strode with our hands in our pockets."

Bridesmaids Becoming Scarce Bridesmaids are becoming scarce for society weddings and it is quite possible that those available in the future will demand a fee for their services.

This has come about not through any particular shortage of girls, but from the fact that the old superstition still prevails if a girl has been a bridesmaid more than twice she will never be a bride herself. Also it is an expensive luxury being a bridesmaid now that incomes are somewhat depleted, and dress materials so expensive.

At one or two of the recent society weddings bridesmaids were promised and received valuable diamond pendants for their services, and now Mayfair is discussing what fee a bridesmaid should be entitled to when the shortage

## OPERATIONS GOING FORWARD SHALLOW OIL FIELD SECTOR

NUMEROUS WELLS WILL BE  
READY BE BROUGHT IN  
NEXT SEVERAL DAYS

With two wells drilling plus, three drilling and casing set on others activity in the Chambers Creek oil district were picking up Thursday.

Garland Kent was drilling plug on the Hardy No. 12, an off set to the Hardy No. 10, which is some distance from the nest of wells now in operation by the Magnolia Petroleum Company and Mr. Kent. Casing was set on the No. 12, around 1,030 feet. The crew was setting casing on the Kent, Hardy No. 13, which offsets the Magnolia, Hardy No. 1, 300 feet to the east. Casing is being set around the 1,250 foot depth.

The Kent, Hardy No. 14, drilled by Charlie Kessinger, has been spudded in and was drilling around 560 feet Wednesday night. This well offsets the Magnolia No. 1, 300 feet to the north.

The Magnolia Company was drilling plug on their Hardy No. 3, 300 feet south of No. 1, where casing is set around 1,260 feet. It was learned that the Magnolia Company were fixing to set casing on the Hardy No. 2, around the same depth where good sand has been found. The Magnolia, Hardy-Halbert well across the road and 300 feet west of Hardy No. 2, was drilling around 600 feet.

The Magnolia-Stout No. 1, on the north side of the Kerens road about a half mile west of the Chambers creek was being drilled deeper Thursday in search of the sand found in the T. G. Towns No. 1, which lies in line with the Stout No. 1, right on the bank of the Chambers creek. Scouts coming in from the field report that a good sand has been found and hope for a producing well is continued.

The Cantrell and Reynolds No. 1, on the Melton 65 acre tract east of Chambers creek and in line with the wells on the west side of the creek is still shut down on account of high water.

## TRAIN HELD UP BY DRIFTS WHICH BLOCKED THE LINES

By Associated Press.

Denver, Colo., March 10.—A blizzard in Southern Colorado today delayed trains, blocked highways and blasted hopes of San Juan Valley mining communities to reestablish transportation lines severed a month ago by snow slides.

Passengers on a Denver and Rio Grande Western train en route from Durango to Denver, were marooned at Chama, New Mexico, today, while another train was stalled by drifts between Telluride and Durango.

While the precipitation was light in the lowlands, a heavy snow fall was reported in the mountain districts where crews had attempted unsuccessfully to clear passes for weeks. Rail officials feared the storm would cause new slides, adding to the hazards of clearing the tracks in which work several men have been killed this winter.

Silverton, where 1,200 persons have been isolated for weeks, and Eureka, with a population of 150, reported ample food on hand, and announced all available men would be thrown into the work of clearing railroad tracks. Both towns have depended on muleherds for medical supplies and other necessities until Tuesday when an airplane succeeded in reaching them.

## COUNSEL ENMESHED IN LEGAL TANGLE IN CASE OF SINCLAIR

By Associated Press.

Washington, March 10.—Counsel in Harry F. Sinclair's contempt trial got their wits so badly crossed today that Justice Hitz excused the jury until Monday and told the lawyers to take the rest of the week for straightening out the legal technicalities of the case. The difficulties developed when the millionaire oil man's attorneys again attempted unsuccessfully to put before the jury the testimony given by the defendant before the Senate oil committee prior to his final refusal to answer. It is upon this refusal that the Senate is asking the court to hold Sinclair in contempt.

The defense contends Sinclair already had answered in previous testimony all of the questions which he declined to answer when he appeared for the sixth and last time in response to a committee subpoena.

There's no selling without some form or telling—Advertise.

tion still prevails if a girl has been a bridesmaid more than twice she will never be a bride herself. Also it is an expensive luxury being a bridesmaid now that incomes are somewhat depleted, and dress materials so expensive.

### INCREASE IN TAX PERCENTAGE SHOWN HAVE BEEN PAID

#### LIMESTONE COUNTY CONSIDERED IN BETTER CONDITION THAN YEAR AGO

Special to the Sun.

Groesbeck, Texas, March 10.—By the barometer of tax payments Limestone county is eight per cent better off than last year, according to A. B. Bunn, county tax collector, who has completed his report to the state and county of collections up to the end of January.

"On February 1, last year only 82 per cent of the tax rolls had been collected, while 91 per cent has been collected this year to the same date," said Mr. Bunn, commenting on his report which was filed with County Auditor J. B. Watson, Jr., Tuesday. Mr. Bunn also made his returns to the state of taxes collected on the same day.

However, due to the cutting of the tax rate by the state and county, and a slight reduction in valuations of the county, \$521,467.07 was collected for the county, and \$230,517.72 for the state this year, compared with \$530,176.54 for the county and \$268,135.29 for the state a year ago.

Tax collections for school districts and road districts, included in the above county total, were higher than a year ago. For common school districts \$125,620.11 was collected, compared with \$123,997.49 last year. For special road districts \$147,868.46 was collected compared with \$144,842.11 for last year.

Poll tax collections this year were 6,183, somewhat smaller than a year ago.

Mr. Bunn's remittance to the state was sent in Tuesday. The county auditor, J. B. Watson, Jr., will distribute the money turned over to him to the various funds for which it was collected.

County officials were pleased with the collections this year made in spite of the low price of cotton, and the drought of the year before.

**KNIGHTS PYTHIAS WILL HONOR SUPREME OFFICER IN DALLAS**

**CORSICANA LODGE EXPECTED TO BE REPRESENTED IN BIG MEETING**

Honoring Hon. Harry M. Love, Supreme Keeper of Records and Seals, Knights of Pythias, and a large class of Pages for the Rathbone Bible Class, the Dallas Knights of Pythias will entertain next Wednesday night, March 16th with a grand banquet and program at the Jefferson Hotel, to be followed immediately afterward by an initiatory service in the Castle Hall of the Dallas lodge, at which time the famous Rathbone Bible, the first Bible used in the initiation of a candidate into the Knights of Pythias order, will be used in exemplifying the rank of Page in the order.

Corsicana Knights of Pythias have been invited to be present and to bring a large class for the rank of Page. At the meeting of the local lodge Tuesday night a committee headed by Ballard W. George was named to secure the names of all local Pythians who will attend this affair. It is planned to go up in automobiles if the weather permits, but otherwise the intervention will be used, and a large number of Corsicana Pythians are expected to attend.

These affairs will be held in several other of the larger cities of the State and the Texas Grand Lodge officers will attend and a great time for Pythianism is anticipated.

## COUNTY NEWS

EMHOUSE

Special to the Sun.

Emhouse, Texas, March 10.—The weather man has turned a deaf ear to our pleading for sunshine and we have been having the heaviest rains of the year this week. Monday and Tuesday were indeed "rainy days."

Miss Jodie Holmes, who is attending the Junior Baptist academy at Jacksonville, spent last week-end with her parents, Mr. and Mrs. N. H. Holmes.

Mrs. Nell Patterson has returned from the sanitarium at Dallas. She is reported feeling very well.

Mrs. J. W. Kuykendall stood her operation fairly well and is doing as well this week as could be expected.

S. M. Garrett made a business trip to Dallas Monday.

Mr. and Mrs. W. R. Hall, and little daughter, Elizabeth and C. R. Hall, were visitors to the Fat Stock Show at Fort Worth Sunday.

Chas. Stokes was a lighthouse visitor Sunday.

We are indeed sorry to learn that little Willie Mae Tinkle is very low at this writing.

The Senior play which was given by the Senior class Friday night was a great success, everyone who attended reporting a most interesting evening.

Miss Nancy Owen was at home for the week-end.

Mr. and Mrs. John Hatley are rejoicing over the arrival of a fine son who made his appearance Tuesday, March 8.

Roy Bristow spent Saturday night and Sunday with his parents. Mr. and Mrs. Harry Richard of Corsicana visited Mr. and Mrs. A. C. Richard Sunday.

Mr. and Mrs. W. H. Williams and Mr. and Mrs. John Allen were in Corsicana visiting Monday.

The Senior Epworth League of the M. E. Church was re-organized Sunday evening with a large number of members enrolled. The following officers were elected: Mrs. G. G. Owen, president; Mrs. Jim Dixon, vice president; Miss Robbie Harris, secretary.

Mr. and Mrs. Jerry Worsham spent Sunday with Dr. and Mrs. J. P. Worsham of Barry. We are indeed sorry to learn that Mrs. Worsham continues very ill.

BLOOMING GROVE

Special to the Sun.

Blooming Grove, Texas, March 10.—Misses Mae, Fae and Maud Heaton who attend school in Dallas, spent the week-end with their mother, Mrs. E. B. Lowrey.

Mr. and Mrs. L. I. Griffin and J. B. Jones were in Dallas Thursday. Miss Thresa Whorton, student of S. M. U., Dallas, spent the week-end with her parents.

G. E. Ramsey, Jr., student of Baylor Medical college, Dallas, spent the week-end with his parents.

Mrs. E. B. Lowrey is spending the week-end with her son, Jim Heaton.

Mrs. Roy Burns, who teaches near Corsicana spent the week-end with her parents, Mr. and Mrs. A. B. Croasley.

Miss Jeanette Dillingham shopped in Corsicana Thursday.

Mrs. S. M. Woodard spent a few days with Mrs. A. A. Wortham of Corsicana, going on to Dallas Monday. She was accompanied home Monday afternoon by her brother, J. M. McLemore of Van Alstyne.

O. C. Ingram of Dallas, spent Sunday with his parents.

Miss Emogene Cole of Corsicana spent the week-end with her parents, Mr. and Mrs. J. H. Cole.

The Cultura Club gave a Silver Tea Friday afternoon from 3 until 5 o'clock, at the home of Mrs. D. L. Riley. A very interesting musical program was rendered during the afternoon and a nice sum was realized.

W. J. McAdams made a business trip to Dallas Saturday.

Miss Inez Campbell who teaches in Frost spent the week-end with her mother.

Miss Edda Jones who is teaching at Duncannon, spent the week-end with her parents.

Misses Ina Leverette and Zella Mae Reynolds, spent the week-end in Hillsboro.

Miss Cleo Bacon of Brandon spent the week-end with her parents.

J. O. McSpadden and Joe George spent Saturday and Sunday at the Fat Stock Show at Fort Worth.

Mr. and Mrs. Jim Wallace and children of Dorchester and R. D. Richards of Dallas spent Sunday with relatives.

Mrs. Clyde Tullis and son of Frost spent Sunday with her parents, Mr. and Mrs. Jack Jones.

Drew Gibson of Lowe spent Monday at the Fat Stock show.

Mrs. S. M. Woodard and Mr. and Mrs. P. H. Woodard went to Sulphur Springs Wednesday to attend the funeral of L. A. McLemore who died at Ozona Tuesday.

# 100 YEARS OF DENOMINATIONAL DEVELOPMENT COMMEMORATED BAPTIST CONQUEST CAMPAIGN

By the Associated Press.

Corpus, Texas, March 10.—One hundred years of denominational development is being commemorated this month by Texas Baptist in their conquest campaign to pay off the debts of their institutions.

The first Baptist minister entered Texas a little more than a century ago. Since then the denomination has grown to nearly half a million members and has accumulated property, outside of local church buildings, in excess of \$18,000,000.

The present campaign led by Dr. George W. Truett of Dallas, nationally known pastor, and other church leaders, has been launched to raise \$2,000,000 by March 15 to apply on \$5,000,000 of outstanding obligations against their great system of educational, missionary, and benevolent institutions.

Of the nine colleges which are beneficiaries in the campaign, Baylor University at Waco and Dallas, is the chief. Baylor was chartered by the Republic of Texas in 1845, being the oldest existing university in the state. It enrolled in all departments last year a total of 3,434 students. It has total assets of \$4,472,498 and heavy liabilities. It has nearly 30,000 ex-students, among its distinguished alumni appearing the names of Dr. B. H. Carroll, Albert Sidney Burleson, former Governor Pat M. Neff, George W. Truett and scores of distinguished citizens living and dead. Its scientific schools in Dallas, clustering about a \$2,000,000 hospital, are ranked important in the South.

Baylor College for Women at Dallas, originally connected with the University at Independence before the removal of both, has had a commensurate development with Baylor University at Waco and Dallas.

It has the highest ranking obtainable in the South, and with it 2,372 students claims to come only second to the largest woman's college in the entire country. Connected

with its history are such names as the Laws, the Smiths, the Elys, the Wilsons, the Peppers, the Burts, the Stribblings, the Townsends, and a leader of Texas affairs, President J. C. Hardy, all prominent Texas names.

Another college of consequence included in the Baptist system is Howard Payne at Brownwood, which enrolled last year 1,043 students, the largest standard senior co-educational denominational college in the entire south. It is claimed. Other schools are Wayland at Plainview, Decatur College, Burlington at Greenville, the College of Marshall, Rusk College, and San Marcos Academy. In all their schools included in this campaign last year the Baptist enrolled a total of 9,410 students, which they consider an impressive achievement without cost to the state.

The six big hospitals, at Dallas, Houston, Waco, Fort Worth, Abilene and Harlingen, have total assets of \$2,315,680, and treated a total of 22,362 patients last year, and if clinical patients are added the number is increased by 51,000 at Baylor Hospital in Dallas alone.

A young institution which has obtained Southwestern recognition, drawing students from all the Southern states, is the Southwestern Theological Seminary, Fort Worth, now thought to be the largest school of its kind among the Baptist of the world. Dr. L. R. Scarbrough is president. It has property valued at \$1,740,000, and enrolled 578 students for special Christian service last year.

Added to this list of institutions which are distributed throughout the state, is the big fostering agency, the State Executive Board, which employs regularly about 400 missionaries in the state, lends aid in monthly checks to all institutions owned by the Baptist and co-operates with the board of Southern Baptist Convention in a world program of Christian Ministry.

"The scope of service undertaken by our denomination," says Dr. Truett, "while not all that we might do, is yet of commanding significance, one that is intended to help Texas toward its true destiny and assist to some extent in relieving the stark spiritual needs of the wide world."

## Resolutions on Death Of L. A. Pinkston

Resolutions of Hospital Board on the death of L. A. Pinkston. Whereas, The Great Ruler of the Universe has, in his infinite wisdom, removed from our midst our worthy and esteemed co-worker, L. A. Pinkston, and Whereas, The intimate relations held during the years of association with the members of this Board make it fitting that we record our appreciation of him, therefore

Resolved, That the wisdom and ability which he has exercised in aid of our Board work, by counsel and service, will be held in grateful remembrance.

Resolved, That the sudden re-

## ROADS IMPROVING SINCE RAINS THIS WEEK; NOW PASSABLE

## BAD STRETCHES CONTINUE TO GIVE MOTORISTS TROUBLE HOWEVER

Roads in this section have improved rapidly with the favorable weather, it was pointed out at the Chamber of Commerce Thursday morning.

Light traffic was getting through direct to Dallas by way of Palmer. There are good single ruts through the Embouse stretch and through the Palmer bottom.

Trinity river is still over the tramway, cutting off eastbound traffic, and the Wildcat crossing was also inadvisable, according to telephone message from Kerens at 10:30 a. m.

Traffic was getting through to Richland, Wortham and Mexia with some heavy stretches.

Light traffic is also getting through to Waco by way of Dawson, but there are heavy mud stretches east of Dawson.

Kosse reports that the Kosse-Brown road on the southbound trunk line is "passable, but not good—stretch will be rough for next three days even with fair weather."

Navasota reported that roads in that section were muddy but cars were going through to Houston and Brenham.

Most local roads in Navarro county were rutty, rough and heavy, but generally passable to light traffic.

Removal of such a man from our Board leaves a vacancy and shadow that will be deeply realized by all members of the Board, and its friends, and will prove a grievous loss to our city, and the public.

Resolved, That with deep sympathy with the sorrowing relatives and friends of the deceased, we express an earnest hope that even so great a bereavement may be overruled for their highest good. Therefore be it

Resolved, That a copy of these resolutions be sent to the family, one to the Corsicana Daily Sun and a copy be spread upon the minutes of the Navarro County Hospital Board.

Respectfully submitted, COMMITTEE FROM HOSPITAL BOARD.

## RICHLAND

Special to the Sun. Richland, Texas, March 10.—J. M. Scott of Frost was visiting in Richland last Sunday.

Mr. and Mrs. E. B. Winn spent Sunday in Corsicana with Mrs. Winn's mother, Mrs. H. A. Grayson.

H. W. Stepp was in Corsicana on business Wednesday.

Mr. and Mrs. Edgar Evans have moved to Dallas, where Mr. Evans will enter business.

Walter Garland and Walter McDaniel who are attending school in Dallas were home for the week end.

Ernest Maddox who has been away from Richland for a long time is home with relatives again.

B. T. Estes was in Corsicana on business Wednesday.

Mr. and Mrs. W. J. Lucas were the guests of Mr. and Mrs. E. Scott Sunday.

Leon Brown and sister, Mrs. A. C. Harris who are attending Meridian college were home the past week end.

Misses Frankie Ferguson and Ruth Owen of Embouse are the guests of Mrs. B. M. Fluker this week.

Mrs. Thomas Gregory was a visitor in Corsicana Saturday.

Miss Bee Mabrey was the guest of Mrs. J. W. Richards the past week end. Miss Mabrey, at the present lives in Dawson.

Miss Salome Copeland spent the week end with her mother in Waxahachie. She had as her guest little Miss Opal Shafter.

Clyde Arglin came home from Groesbeck Sunday to visit home folks.

Mr. and Mrs. Earl McDaniel are the proud parents of a baby girl, Norma Zane, who weighed eight pounds at birth.

Mr. R. J. Carter and family have moved to Corsicana where Mr. Carter will be still in the employ of the Lone Star Gas Co.

Mr. and Mrs. Elma McGee, visited Mrs. McGee's mother in Sallis the past week.

The Richland Epworth League entertained with a play in the First Methodist church in Corsicana. The play was a great success and enjoyed by many.

## 62 INDICTMENTS RETURNED AFTER THREE-DAY SESSION

## GALT JURY BUSY AS RESULT RECENT RAIDS BY SHERIFF'S DEPARTMENT

The Navarro county grand jury adjourned late Wednesday after a three-day session, until Monday, March 21, and returned sixty-two indictments, sixty-one felonies and one misdemeanor.

The majority of the indictments are said to have been results from the series of raids staged by officers under the direction of Sheriff W. T. Wilson and County Attorney L. J. Woods.

Indictments for the alleged violation of the prohibition laws led with a grand total of forty-six. Several of those indicted were for several cases.

Following are the indictments: Violation of the prohibition laws, 46; assault with intent to murder, 2; forgery and passing a forged instrument, 2; theft, 2; operating a gaming house, 9; resisting arrest, 1 (misdemeanor).

The following have been arrested: R. A. Crouch, violation of the prohibition laws, 5 cases, made bond; Julius Young, violation of the prohibition laws; Garlity Jones, violation of the prohibition laws; R. P. Bryant, violation of the prohibition laws, 2 cases; Julian L. Lanza, violation of the prohibition laws; George Ballard, violation of the prohibition laws, made bond; Sam Moore, alias Kenneth Butler, forgery; Leonard Elkins, violation of the prohibition laws, four cases, made bond; I. D. DuBois, violation of the prohibition laws, two cases, made bond; Porter Jones, violation of the prohibition laws; Ben Videner, violation of the prohibition laws, two cases, made bond; Clyde Stubbs, violation of the prohibition law, made bond; Slim Hagler, violation of prohibition law, made bond; Slim Mulligan, violation of prohibition laws, made bond; Abe Levine, operating a gaming house, made bond; Jack Fisher, violation of prohibition law; John Widener, violation of prohibition law, made bond; Willie Carter, violation of prohibition law; Rebon Standard, violation of prohibition law, made bond; E. Mayfield, violation of prohibition law, made bond; Olden Mayfield, violation of prohibition law, made bond; Reese Mayfield, violation of prohibition law, made bond; Costrema Mayfield, violation of prohibition law, made bond.

Other arrests on indictments will be made late Thursday.

## COMMISSIONERS AND JUDGES MEET NEXT WEEK IN KAUFMAN

## MEMBERS NAVARRO COUNTY COMMISSIONERS COURT PLAN TO ATTEND

Several of the members of the Navarro County Commissioners' Court are planning to attend the district county judges and commissioners association meeting which will be held in Kaufman, Wednesday, March 16.

Following is the program: "Duties of the Commissioners' Court as a Board of Equalization," W. C. Stevenson, commissioner, Ellis county.

"Review of Recent Legislation Effecting the Administration of County Affairs," Warrant Hicks, county judge, Navarro county.

"Proper Maintenance of Black Land Roads," J. C. Goddard, commissioner, Ellis county.

"Tractor Maintenance of Roads vs. Horse Power," D. T. Collins, commissioner, Navarro county.

"The Best Method for Operation of County Farm and Care of Pansies," H. R. Stovall, county judge, Ellis county.

"Duties and Powers of the Commissioners' Court in the Enforcement of the Automobile Registration and Headlight Law," Olin Culbertson, county judge, Hill county.

"Round Table Discussion" led by Jack Megarity, commissioner, Navarro county.

## How Children Quickly Gain Robust Health

For weak, puny, inactive children—and especially those that have rickets, and need a sure builder that promotes the growth of teeth and bones, cod liver oil is the one medicine supreme—nothing helps like it.

But it is nasty and repulsive and smells and nearly always upsets children's stomachs—so now up to date pharmacists advise McCoy's Cod Liver Oil Compound Tablets, with their wealth of vitamins.

Children love them as they do candy, because they are sugar coated and easy to take. One boy gained 11 1-2 pounds in seven weeks, and is now healthy and happy—thousands of other children have grown strong and robust.

Sixty tablets for 60 cents at Conkors Drug Co. and druggists everywhere. Try them for 30 days and if you are not happily satisfied with the test set your money back. But demand McCoy's—it pays to get the genuine.

## HOUSE REFUSES TO TAKE UP AMNESTY REPEAL TODAY

VOTE, WHICH NEEDED TWO-THIRDS MAJORITY, WAS 56 TO 46

By Associated Press. Austin, Texas, March 10.—The House late today by a vote of 56 to 46 refused to take up its regular order the Love anti-amnesty measure, affecting former Governor James E. Ferguson.

Representative Veatch of Johnson county made an unsuccessful motion to consider the measure. He would repeal amnesty granted to the impeached former governor by the 29th Legislature. A two-thirds vote would have been required.

"My only motive in making this motion," Veatch shouted above the din, "is to get some action and dispose of this thing here and now. It was one of the first bills passed by the Senate and should be acted on."

House members believe the vote sounded the death knell of the bill for this session.

What Can Pimply Faced Boys and Girls Expect

Nobody knows better than the boy or girl who has been slighted "time and again by their supposed 'best friend,'" how humiliating it is to have to stand for such "cutting" things when they know they can expect nothing more as long as they don't look attractive, on account of a pimply, blotchy or rough skin.

Put such heartaches don't have to be put up with. Any boy or girl who is troubled with these skin blemishes can get rid of them. They will just use Black and White Ointment and the Soap. The fact that they sell at the tremendous rate of more than two million packages a year shows how popular they are. They are economically priced, in liberal packages. Any dealer can supply you with both the Ointment and the Soap. The 5oz. size Ointment contains three times as much as the 2 1/2 oz. size.

Your advertising measures your faith in yourself and business.

# IS THERE NO RELIEF FROM SKIN TORTURE?

**Must I Continue to Suffer the Unbearable Itching?**

Are you one of those unfortunate ones who are going through life suffering with a skin disease, making you uncomfortable, making you less efficient, interfering with your working hours, ruining your sleep? You may have tried many things without relief. Why not try S.S.S.? For more than 100 years it has been giving relief in many forms of skin disease. Thousands of letters of gratitude prove its worth.

"I feel so happy for what S.S.S. has done for me that I want others to know about it. I suffered twenty long years from eczema. At times the itching was unbearable. During that time, I used all kinds of salves without receiving any real benefit. After taking six bottles of S.S.S., I was cured of this dreadful disease. I recommend S.S.S. to anyone suffering from eczema, because I can not praise it enough for what it has done for me." Cleophas Forte, Soldiers and Sailors Home, Quincy, Ill.

S.S.S. is purely vegetable. It is extracted from the fresh roots of medicinal plants and herbs and gives to Nature what she needs in building you up so that your system throws off the cause. S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

Dr. J. R. Dickinson of Dawson was in Corsicana Wednesday.

Clyde Wilkes, father at the county jail, was a business visitor in Dawson Tuesday.

H. T. Devlin of the accounting division, Fred Krause, factory representative, and George Fuller, zone manager for the sales promotional department of the Chevrolet Motor Company with headquarters in Dallas, have been in Corsicana several days with the local dealers, Crumley, Ellis & Co.

## MAGNITUDE OF JAP EARTHQUAKE GROWS AS NEWS COMES IN

DEATH LIST AT LEAST 2275; THOUSANDS INJURED; 50,000 HOMELESS

By Associated Press.  
Tokyo, March 9.—The home office announced this afternoon that according to latest advices, 2,275 persons were killed in Monday's earthquake in Central Japan, and 3,441 injured. Houses numbering 3,606 were destroyed by fire, 3,113 by the quake, 158 were partly burned and 1,657 damaged by the shock.

By Associated Press.  
Tokyo, March 9.—All Japan was organizing today to send succor to the central part of the island, where Monday's earthquake brought death to at least 2,275 persons, injuries to thousands of others and untold misery to about fifty thousand persons whose homes collapsed or were burned. The condition of the homeless is miserable, owing to the cold, snowy weather. Immediately following the quake and last night's rain.

Army and navy expeditions are on the way with food, clothing and medicines, and other relief parties are being rushed from Tokyo, Yokohama, Kobe, Osaka and Kyoto. Whether the number of casualties proves greater or less than present estimates, it is clear that the disaster was one of the gravest in Japan's history. Each succeeding report brings a fresh story of death and suffering.

One report from Minoyama says Mayor Nakamura and his family were imprisoned and burned to death when their home collapsed and took fire. Other families suffered a like fate. The scenes after the flames died down were described as most pitiful, some of the survivors digging in the ashes for some trace of their missing and others hunting for crumbs of food and pleading for assistance from the arriving relief workers.

Hundreds of bodies still are beneath the ruins and the search for the missing is continuing.

Boombok street cars carry the bodies which are placed in piles awaiting burial.

No estimate of the damage caused by the quake has been made public thus far. Some observers believe the loss will amount to at least \$50,000,000 and perhaps \$75,000,000.

1,000 Killed in Minoyama.  
Reports to the home office still incomplete because of interrupted communications indicated that in the town of Minoyama alone 1,000 persons were killed and 1,000 houses destroyed. From all parts of the stricken area reports have come in of towns laid waste, partly through the quake itself and partly through fires which broke out soon after the disturbance.

Although the larger cities of the district, Kobe and Osaka felt the quake, they escaped with comparatively little damage. The comparatively few deaths there were due to falling tiles and stampedes by panicked crowds.

In Tango province, 4,750 persons were killed, according to home office figures, while about 3,500 houses collapsed and an equal number were destroyed by fire. Home office information was that the towns of Minoyama, Amio, Kayetsu and Maite were hardest hit.

Some idea of the sufferings of refugees in Tango is had from stories how hundreds of them were compelled to seek shelter in the lee of snow drifts sleeping on mats spread on the snow.

All of them were hungry and scantily clad. One private investigator reported that bodies were strewn about everywhere—in the streets of towns and the open fields—and that hundreds of injured persons were pleading for medical attention.

Red Cross Asked to Aid.  
By Associated Press.  
Washington, March 9.—President Coolidge asked the American Red Cross today to offer aid to Japan in their latest earthquake disaster.

Baptist Missionaries Safe.  
By Associated Press.  
New York, March 9.—Missionaries of the American Baptist Foreign Mission Society, who were in Kobe and Osaka districts, were reported safe in a cablegram received today by the American Baptist Foreign Mission Society.

One American Known Dead.  
By Associated Press.  
Washington, March 9.—A State Department dispatch today from Kobe said the only American known to have been killed in the Japanese earthquake was Mrs. Jessie Glenchuch of Ventnor, N. J. Damage to American property in the Kobe area apparently was confined to total destruction of several Standard Oil Company warehouses.

## WANTS IMPORTANT BILLS PASSED THIS SESSION LAWMAKERS

PENITENTIARY, TEXTBOOK, JUDICIAL AND TAX LEGISLATION URGED

By Associated Press.

Austin, Texas, March 9.—Governor Dan Moody today asked the Senate to remain in session until penitentiary, text book, judicial and tax legislation is disposed of. His address was similar to his message to the House yesterday. Pointing out that the penitentiary system is without funds he said it was possible to place it upon a sound financial basis by passing the Senate bill providing for a prison board of nine members operating along certain broad policies laid down by the Legislature and on funds appropriated by the Legislature.

Governor Moody's chief recommendation concerning text books was that the law be altered so that contracts would be let on a f. o. b. basis, eliminating any chance that the companies might profit on freight rates. He also advocated a provision which would allow the Text Book Commission two years to introduce a new adoption so that the old books remaining on hand might be utilized.

On tax legislation the Governor advocated action on the Stevenson resolution which would amend the constitution by reducing ad valorem taxes and leaving most of the money raised by such taxes in the counties and finding new sources for State income such as franchise taxes and other taxes on intangible values.

Judicial reform was mentioned briefly as well as all of the judicial measures have passed the Senate and gone to the House.

## No Taxation of University Lands

By Associated Press.

Austin, Texas, March 9.—The proposal for a constitutional amendment permitting taxation of University land was killed in the Senate today when that body killed the Boggs resolution, 18 to 7, on a motion to indefinitely postpone.

The Boggs resolution proposed for a constitutional amendment allowing Edwards and Sutton county to vote \$1,000,000 in bonds for the construction of a railway. Indications were that all constitutional amendments before the Upper House would be disposed of today.

The Boggs resolution would have called for referendum on the question of permitting counties to tax millions of dollars of University land which is now free from taxation.

The other resolution killed was the remnant of a proposition by which Edwards, Sutton, Val Verde, Schleicher and Tom Green counties once proposed to build a railroad connecting with the Orient at Alpine. Three of the counties withdrew.

## Moore's Successor Sworn in Today

By Associated Press.

Austin, Texas, March 9.—Alexander Brice, Sulphur Springs, elected Saturday in the 136th district, was sworn into the House today to fill the vacancy left by expulsion of H. H. Moore of Cooper, involved with former Representative F. A. Dale of Bonham in bribe taking charges.

W. H. Keaton of Bonham was sworn in Monday to succeed Dale.

## Favorable Report on Wassell Resolution

By Associated Press.

Austin, Texas, March 9.—Favorable report on the Wassell resolution calling for a constitutional amendment to abolish the Texas fee system of paying officers and the lower judiciary today was made by the House constitutional amendments committee.

Sentiment against the fee system, strong for some time, began crystallizing here following the United States Supreme Court opinion in an Ohio case which left constitutional validity of justice of the peace fees and others in doubt. Several legal authorities here expressed belief that the opinion would disrupt the Texas fee system.

## Election Betting Bill Killed.

By Associated Press.

Austin, Texas, March 9.—Assailed vigorously as "witchburning legislation," a further menace to respect for the law and a "big piece of foolishness," the Barnett bill to make betting on elections a felony punishable by imprisonment was killed in the House today, 69 to 52.

## More Supreme Court Justices.

By Associated Press.

Austin, Texas, March 9.—The House concurred today in Senate amendments to the proposed constitutional amendment to make a full nine-member tribunal of the Supreme Court and allow five instead of three criminal appellate court justices if necessary.

## Cotton Acreage Bill Not Favored.

By Associated Press.

Austin, Texas, March 9.—Adverse report on the Shirley House resolution to tax excess cotton acreage \$25 an acre, was returned today by the House constitutional amendments committee.

## GRADUATE SCHOOL UNIVERSITY TEXAS—LARGEST IN SOUTH

Special to the Sun.

Austin, Texas, March 9.—A comparison of enrollment figures reveals that the Graduate School of the University of Texas is larger in attendance than that of any other institution south of the Mason-Dixie line. John Hopkins University is excepted.

At present there are enrolled in the Graduate School 374 students, and approximately one hundred of that number are applicants for degrees in June.

During the twelve months from September 1, 1925 to September 1, 1926, there were 223 graduate students enrolled. During the same period 172 degrees were conferred and 128 were pursuing work beyond the masters degree and some were then completing the work necessary for a Doctor's degree.

In the summer of 1926 an unusually strong group of visiting professors in the Graduate School were assembled here. These professors were selected from the larger universities in every section of the country.

Arrangements are being perfected to carry out the same plan for summer school of 1927," stated Dr. H. W. Harper, dean of the Graduate School. "Appropriations have been made by the legislature for the summer session and an unusually strong graduate faculty and a larger number of graduate students are expected."

## All a Mistake

is the title of a play that will be given by the Pursley Cemetery Association at Pursley school house Friday night, March 11th. Admission 15c and 25c. All are welcome.

## What's Worth Buying Is Worth Advertising!

DON'T BLAME THE PUBLIC FOR NOT KNOWING WHAT YOU HAVEN'T TOLD THEM!

### *Getting Intelligent Distribution Out of Your Advertising Is Most Important*

The confidence that the public has in its newspaper, backed by a thorough and permanent distribution into homes of an intelligent people who want and pay for their paper, makes its advertising space the most valuable and reasonable in cost of any other medium in the world.

A newspaper must be thoroughly established in the community and recognized by a paid list of permanent subscribers before it can be classed as a first-class advertising medium.

In publishing a newspaper we manufacture advertising space to sell.

Its value is measured by the number of our readers plus their interest and confidence in the paper they have selected as "theirs."

Their purchase of it constitutes their invitation to you to put your business message before them through its columns.

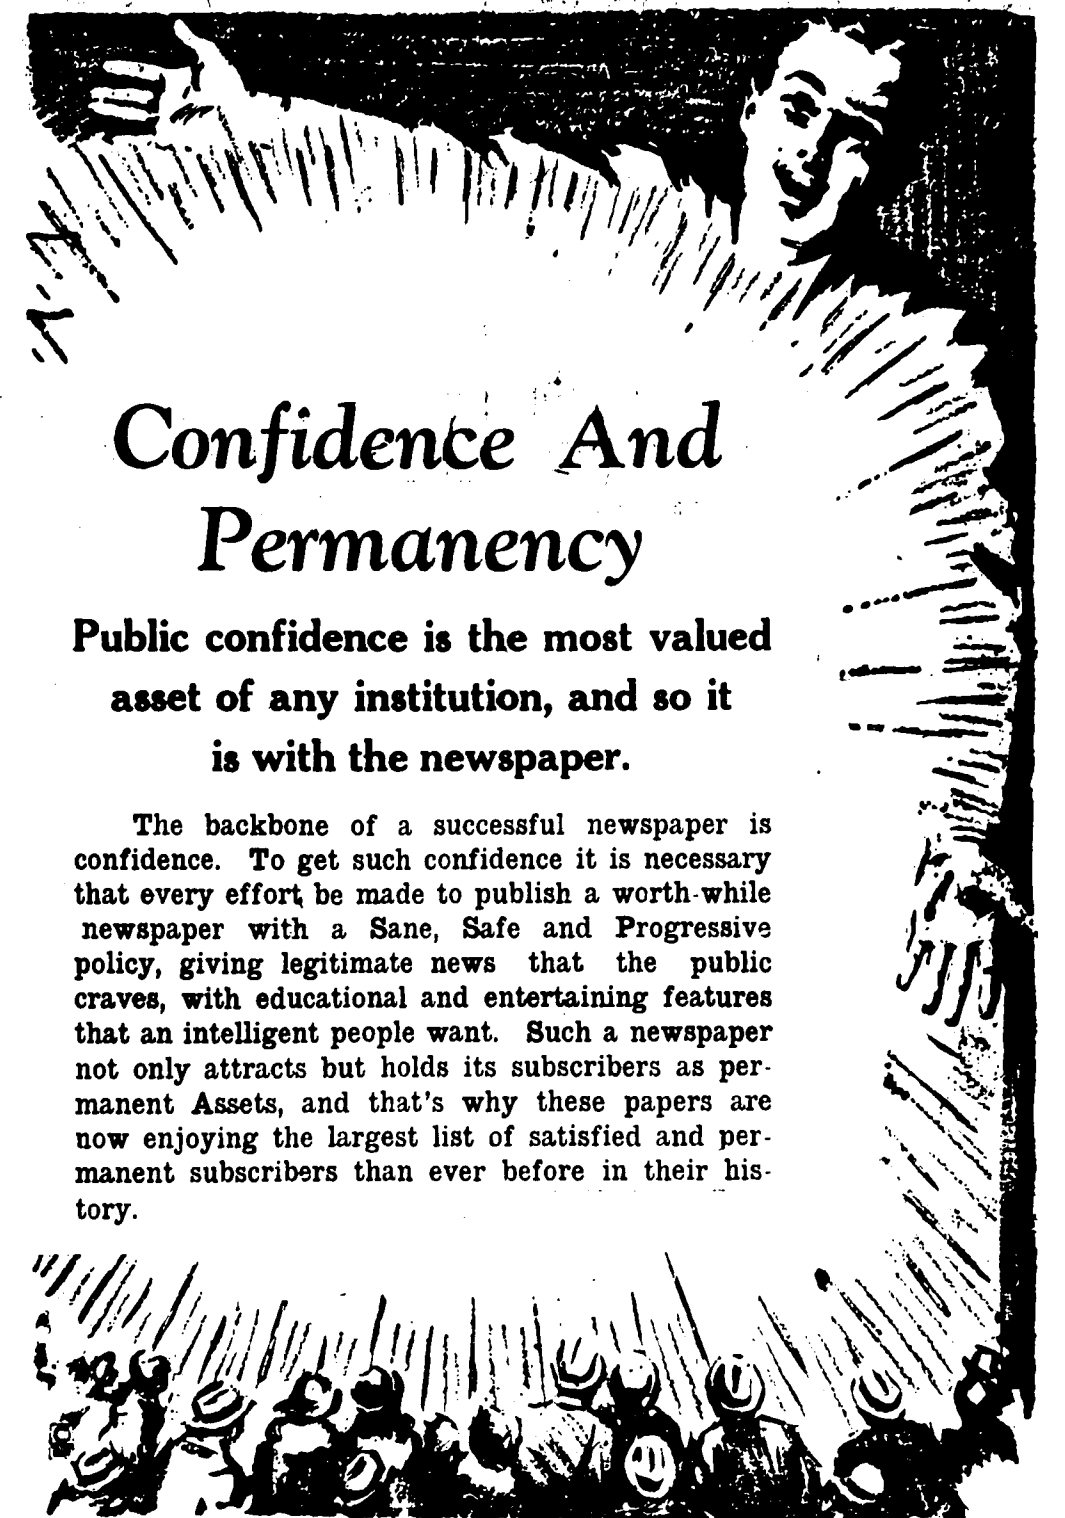

When they sit down to read it they are in the mood for news; your news, if you have any. This means that they'll read it gladly and responsively.

The reader's mood for news is therefore one of the things we sell in selling advertising space.

In placing your advertising matter it will be well to go into the matter deliberately, and with definite knowledge as to the class of advertising medium you are using, and where it is going to, and whether or not it is established, and has a known circulation in the community that you desire to cover.

These facts are most important, for advertising is worthless unless it has a definite and wide distribution among the people of your trade territory.

*"Keeping Everlastingly At It Brings Success"*

### *Confidence And Permanency*

Public confidence is the most valued  
asset of any institution, and so it  
is with the newspaper.

The backbone of a successful newspaper is confidence. To get such confidence it is necessary that every effort be made to publish a worth-while newspaper with a Sane, Safe and Progressive policy, giving legitimate news that the public craves, with educational and entertaining features that an intelligent people want. Such a newspaper not only attracts but holds its subscribers as permanent Assets, and that's why these papers are now enjoying the largest list of satisfied and permanent subscribers than ever before in their history.

# Nimble Nickels

## Farmers and Fuddlers:

For the past few months we have been grouching any grumbling about the high prices of Merchandise and the low prices of products. Cast your weary, watery eyes over these prices and see what you can get with a nickle—

Nails, all sizes and dimensions, pound	5c
Fence Staples, Oak and Cedar denominations	5c
Per pound	5c
Opal Glass Nest Eggs, 2 for	5c
Fish Hook, Line, Sinkers and Cork	5c
Gray Granite Mixing Bowl	5c
Gray Granite One Quart Dairy Pan	5c
Gray Granite One Quart Pudding Pan	5c
Gray Granite One Quart Sauce Pan	5c
Tin Wash Pan	5c
One Quart Cup	5c
One Gallon Tin Coffee Pot	5c
Nine Inch Pie Pan	5c
Nine Ounce Glass Tumbler	5c
Five Inch Crystal Glass Nappy	5c
Five Inch Semi-porcelain Oat Meal Bowl	5c

A nickle is a worthless little cuss around a gas station, but it looms large on a Sunday School plate, or a Salvation Army Tamborine.

There are 15 items mentioned above, all belonging to the necessities of life—gas not included—that will pay you to invest in. If you waste your nickels, you will have no dollars to worry over. If you save your nickels, your financial salvation will be sure.

## NAVARRO COUNTY MEDICAL SOCIETY MET MONDAY NIGHT

### DRS. HALBERT AND EZELL PRINCIPAL SPEAKERS ON PROGRAM OF MEDICOS

Drs. W. W. Halbert and Harry Ezell, both of Corsicana, were the principal speakers at the regular monthly meeting of the Navarro County Medical Society held at 7:30 o'clock in the Chamber of Commerce building.

Dr. Ezell's subject was "Oral Hygiene." He stressed the relation between the physicians and dentists and the education of the public. It was pointed out how the development of the child's teeth depends largely on the diet of the mother in the pre-natal period and the necessity of preserving the baby teeth as an essential procedure for good adult teeth.

Dr. Halbert's subject was "Abdominal Swelling." After the presentation of his paper, a round-table discussion was held.

Plans were made Monday night for a special program in May relative to children's summer diseases. The attendance Monday night was curtailed considerably by the weather conditions which prohibited the members outside of Corsicana from attending. Dr. H. R. McMullen of Roane was the only member present who does not reside in Corsicana.

Among those present included: Dr. F. N. Suttie, Trim Houston, W. W. Carter, B. F. Houston, W. D. Cross, T. A. Miller, H. B. Jester, E. P. Norwood, Dan B. Hamill, R. C. Curtis, S. H. Burnett, H. H. Pantan, A. D. Sanders, E. H. Newton, H. R. McMullen, Roane; J. Wilson David, W. W. Halbert, W. R. Snead, A. W. Rogers and Harry Ezell.

## HOUSTON RECTOR WILL PREACH HERE WEDNESDAY NIGHT

### REV. F. M. OSBORNE OF AUSTIN HOUSE TO BE WEDNESDAY EVENING SPEAKER

As has been previously announced in these columns, the Rev. F. M. Osborne of Austin House, Houston, will be the Wednesday evening Lenten preacher in St. John's Episcopal church tomorrow (Wednesday) evening at 7:30 o'clock. This visiting minister comes with the reputation of being an interesting preacher and with an instructive and helpful message. The general public is invited to hear him.

The Bible Class which has been organized for the Lenten season to meet at the homes of different members, and of which the Rector, the Rev. H. J. Ellis has been drafted as instructor, will meet this (Tuesday) evening at the home of Mr. and Mrs. Robert Watt, 212 South Sixteenth street. This class has been organized for all members of the congregation of St. John's Parish and their friends, and all are urged to attend.

Other Lenten services as heretofore announced will be held during this week and each week during Lent.

## COURT HOUSE NEWS.

### From Tuesday's Daily: District Court.

The grand jury was still in session Tuesday. Indications were that the jury would recess late Tuesday or Wednesday.

### District Clerk's Office.

The following cases were filed: E. L. Matlock vs. Mary Lovelima Matlock, divorce. Mrs. Hala M. Verhyden vs. Cecil Verhyden, divorce.

### County Court.

The appearance docket was sounded by County Judge Warren Hicks Tuesday morning in the county court.

### County Superintendent's Office.

Examinations for teacher's certificates will be held at the Navarro county court house, April 1-2. Andrew G. Steele, county superintendent, announced Tuesday afternoon. All who wish to take the teacher's examinations must register at the superintendent's office not later than March 20.

The county superintendent is mailing out Tuesday blanks for the holding of elections all common and county school districts for trustees. These elections will be held Saturday, April 2, with the exception of the school district of Corsicana which will be held on its election, Tuesday, April 5, at the same time that the municipal elections are held.

Mr. and Mrs. W. R. Echols received a message early Tuesday stating that a sister of Mrs. Echols had died during the night at Breckenridge and they left Tuesday morning for that city.

## WRONG EATING IS KILLING AMERICA, SAYS DELE ROSS

### U. S. OVERFED BUT UNDER-NOURISHED, SAYS FAMOUS WOMAN DIETITIAN

Wrong eating, rather than promiscuous drinking, is what is the matter with America today, in the opinion of Mrs. Delle Ross, famous Bloomington, Illinois, dietitian. Mrs. Ross is a former singer and teacher who having cured herself of the disease of overweight after years of struggle, is meeting extraordinary success in curing overweight in others.

"Eating and not drinking is the cause of America today," says Mrs. Ross. "We are overfed but under-nourished. Not all are intemperate in drinking but most of us do not know how to eat intelligently. All foods are good if eaten correctly. Seven years of close study has convinced me that every disease known to man is first caused by wrong eating. Lack of adequate food, supplied in proper variety, leads to overwrought nerves, and the victim seeks in drink and drugs what he should have found in right foods."

"Many people believe it silly to think that perfect health and bodily structure can be brought about by merely eating certain foods. But it is: You would not try to repair a wire fence with silk thread nor mend a silk stocking with wire, would you? Each thing is good in its place, and the same is true of foods. The human body is a complex machine depending for its life-building and life-sustaining powers, science tells us, upon many elements found in foods free from the 'improvements' of man. If these are not all supplied properly, the body cannot work at the highest efficiency. Brain, muscle, bone and nerves depend upon the blood to furnish them materials; the blood, in turn, is dependent on the food put into the stomach. To have a perfect body, we need only to give it right foods, judiciously combined. Disease germs do not thrive in a pure blood stream."

## LEGISLATURE CAN NOT PASS REMISSION LEGISLATION RULED NO EXEMPTION FOR DALLAS, TARRANT AND OTHER RECLAMATION PROJECTS

By Associated Press. Austin, Texas, March 9.—Bills proposing remission of ad valorem taxes in Dallas, Starr, Tyler and Tarrant counties for specified periods to foster reclamation work cannot constitutionally be passed by the Legislature, Attorney General Claude Pollard ruled today. He cited authorities and referred to the constitution numerous times in the opinion which is of record length.

By Associated Press. Austin, Texas, March 9.—The legislature has no power to pass tax remission legislation which would exempt Dallas, Tarrant and other county reclamation districts from taxes, Attorney General Claude Pollard ruled today.

Bills pending in the legislature would remit taxes from reclamation district in Dallas, Tarrant, Starr and Tyler counties for specified terms in order that flood control structures may be built.

Members of both House and Senate accompanied by Governor Dan Moody, recently were interested by Dallas and Fort Worth in a junketing trip and taken to inspect the proposed reclamation work in the Trinity river district.

Senator W. D. McFarlon of Graham has been the leader of opposition to such measures in the legislature.

The written opinion of Mr. Pollard will be given out later today.

## Special Fund For Borger Schools Voted

By Associated Press. Austin, Texas, March 9.—A \$30,000 appropriation to finance the growing school system of Borger, was approved by the House today with final passage of a bill by Representative Gray of Lipscomb county.

Gray explained that the apportionment Borger got on its last census was inadequate to take care of the heavy scholastic increase.

## No Wholesale Change In Prison Personnel

By Associated Press. Houston, Texas, March 9.—Reported imminent wholesale changes in the personnel of State prison farm managers were declared erroneous here Wednesday by R. H. Baker, member of the State prison commission.

Two, possibly three changes were contemplated Mr. Baker said, but had not yet been definitely determined upon.
